

Retrospective Rating Program: Wholesale, Retail & Professional Services

Earn a refund on your L&I premium for workers' compensation

Group retrospective rating programs, also known as “retro,” are safety incentive programs offered by the Washington State Department of Labor & Industries (L&I) that offer refunds of L&I premiums for workers’ compensation insurance as a reward for creating safe work environments.

For over 30 years, Archbright has managed the largest and highest performing retro group for manufacturing companies in the state. We’re excited to announce that Archbright is bringing the same success to the Wholesale, Retail & Professional Services (WRPS) Group.

Why Join Archbright’s Wholesale, Retail & Professional Services (WRPS) Retro Program?

- We specialize in managing the whole situation—not just the claim
- We are the most credentialed retro claims management team in Washington
- We consistently deliver strong refunds to all managed groups
- We have assisted in recovering over \$4.2 million for our members through L&I’s Stay-At-Work Program

**Want to know if you qualify for the program?

Put Our Workers' Compensation Experience to Work for You

Our approach is simple: prevent injuries before they happen through proven safety programs, actively manage every claim to get the injured employee back to work, and guide our members in managing the human side of safety by driving employee engagement.

Claims Management

Other Washington service providers simply monitor claims and require you to contact them with any actions or notices from L&I. Our retro program does things differently. Your claims team will actively manage every claim, from beginning to end, for you.

- We receive all L&I correspondence, take necessary action, and advise you on the next steps for the life of the claim
- You get direct access to our experienced claims managers
- We review all orders for accuracy and, if necessary, will protest or appeal on your behalf
- We leverage our experience to evaluate all claims, looking for patterns and cost containment strategies that you may not be aware of

Safety

Our Total Account Management strategy combines preventive safety programs, effective claims management and improved employee engagement—resulting in fewer injuries and increased productivity. Our six full-time Safety/Loss Control professionals provide:

- Comprehensive, on-site physical hazard inspections
- Policy assessments and recommendations
- Successful safety program development
- Accident investigations
- Specialized training on-site
- Monthly safety webinar
- Cloud-based Risk Management Center

Are you ready for Retro? Let us help you find out.
