Wellbeing & Personal Development

Introduction

CABA is the charity providing lifelong support to past and present ICAEW members and their families. CABA's aim is to enable individuals in the chartered accountant community to promote their own wellbeing – physically, emotionally, financially and professionally.

Since they were founded in 1886 the services they provide have grown significantly to meet the changing needs of living in a modern digital age. And although CABA works closely with ICAEW, it is an independent organisation and they do not share information with ICAEW about the people they work with. All the services that CABA provides – including these training courses – are free.

All CABA trainers are experts in their specialism and courses are delivered by experienced, qualified trainers. Many trainers have a background in professional services and some are qualified accountants, so they understand the environment accountants work in and appreciate the pressures you face day to day.

The courses are practical, providing evidence-based tools, techniques and strategies that you can take away to use in your personal and professional life. In addition, the courses are an opportunity to network with others who are facing similar issues or situations and share ideas and resources.

You will learn the skills that fall outside of technical training – like being able to respond confidently to change and how to deal with pressure; skills that can determine your success and put you a step ahead of the competition.

Testimonials

'(The) course provided great practical tips that can be applied with immediate effect in my day-to-day role, thank you.'

'I don't think I'm overstating things when I say that the CABA courses I attended had a profound effect on me. Not only did they change my attitude to my work, they genuinely made me feel better about my life too.'

'Techniques to help me be more positive and resist my negative thoughts. Really practical help and supporting evidence.'
