- Open Registration begins after PRR runs on Tuesday, June 18. During open registration you can continue to add (and drop) classes first come, first serve throughout the term.

What’s Priority Request Registration (PRR)?

PRR is a stress-free pre-registration process that allows you to prioritize and request the classes you most want to attend. At the end of PRR, our registration system officially enrolls members in classes, filling each seat based on the priority of the request. This is helpful for classes with limited capacities that fill quickly. It is important to give small capacity classes a higher priority if they are important to you. If a class fills, a waiting list is started and ordered by the next priority assigned. More detail on this process and our registration planner materials can be found on our website: olli.arizona.edu.

**Subject Area:** Literature/Writing/Language

**Location:** Ocotillo Room  **Class Size:** 65

**Course Description**

Alan Bennett's first series of six monologues called Talking Heads was released in 1988 to great acclaim. One actor talks to the camera and reveals more than they realize. They are Alan Bennett in "A Chip in the Sugar", Patricia Pourledge in "A Lady of Letters", Maggie Smith in "Bed Among the Lentils", Stephanie Cole in "Soldering On", Julie Walters in "Her Big Chance", Thora Hird in "A Cream Cracker under the Settee". The Guardian says, "They had an impact beyond all that you might have expected. They were so unusual for one thing. They slapped you awake. Just one camera and a person speaking to it. Just words in an actor's mouth, conjuring up a life and a world. It came close to magic." We won't slap you awake as we look at one dialogue a week.

Although it is one of Hardy's "minor" novels, it contains the beautiful descriptions of the Dorset countryside that mark his more monumental works.

Participants will be expected to read approximately 50 pages per week to prepare for class discussion. Any edition of the book will suffice as long as it has chapter numbers.

**Location:** Ocotillo Room  **Class Size:** 65

**Course Description**
This class is all about Alfred Nobel and the quirky characters who won, hands down, the most coveted award on planet earth. We will start with Big Al, as I like to call him, and how the prize came to be. It reads like a soap opera. He wrote the Will in a Paris bar and had it witnessed by several of his fellow patrons. Who is eligible, what are the rules and who decides? He spelled it all out in the Will. The youngest was 17. The oldest was 97. Three were dead and 3 were in the slammer at the time. The awards ceremony is all pomp and circumstance and choreographed right down to the dress code. We will look at the back stories of some of the recipients as well as people who didn’t get the prize and should have. There are also a lot of people who should never have been nominated in the first place. It’s a colorful group. We will cover the key components to winning a Nobel Prize (spoiler alert: being a white male is a major advantage). We will finish with a round of Nobel Jeopardy. This is not to be missed. See how you do.

Course Description
Poland has a rich history that spans centuries. This class will examine the lives and accomplishments of significant Poles. Some of these individuals received little credit until recently.

Poland has always occupied a strategic location in central Europe. Today it is a member of NATO and borders Ukraine, Belarus, and Lithuania to the east. An overview of the history and people of this strategic US ally is timelier than ever. From the Battle of Vienna to the modern day, Poles have fought for an independent and democratic country.

Instructor: Katrina Shawver
Katrina Shawver is an author, lifelong history geek, and relentlessly curious about finding unknown stories. Her book, Henry: A Polish Swimmer's True Story of Friendship from Auschwitz to America, about a Polish survivor of Auschwitz and Buchenwald, garnered many awards and reviews and is now available in English, Polish, and Czech. The Polish American Congress of Arizona awarded Katrina their 2018 Polish Heritage Award “for her contribution to documentation of the suffering inflicted on Polish people during the Holocaust.” She lives in Phoenix, Arizona.

Rediscovering Your Soul’s Potential: Journeying From External to Internal Empowerment

Subject Area: DIY/Self-Help, Philosophy/Spirituality/Religion

Thursdays: 5 Sessions 11:00 AM - 12:45 PM   Start: Thu 7/18/24   End: Thu 8/22/24 - No Class August 15

Location: Online Zoom Offering 2   Class Size: 30

Course Description
Where love rules, there is no will to power and where power predominates, there love is lacking. Carl Jung

How do you understand your purpose in the world? Is it governed by associations with particular groups, by proving to others that you are successful, or by something much deeper? Do you choose love over power? In her book, Real Power: Stages of Personal Power in Organizations, Janet Hagberg contends that real “power” consists in reclaiming a connection to the inner world of our souls and being of service to others. That stands in stark contrast to seeking external validation for our worth from others or our egoic accomplishments. Utilizing Hagberg’s six stages of power as a springboard for our discussion, we will traverse this adapted Hero's Journey to potentially discover how we can transform our perspectives and live deeper and more soul based lives.
While reading the book is not required for the discussion, it could be helpful in furthering participants’ understandings of these concepts and see them illustrated. Please join us in this discussion. Bring your knowledge, beliefs, experiences, insights, and wisdom to share. Please know that this discussion group is not intended to replace your own psychological therapeutic work.

News and Views with Sherry and Doug

Subject Area: History/Current Events

Fridays: 6 Sessions 11:00 AM - 12:45 PM  Start: Fri 7/19/24  End: Fri 8/23/24
Location: Online Zoom Offering  Class Size: 70

Course Description
Every week we pick and vote on topics to discuss. We like to discuss news from many different angles. So all civil opinions/views are welcome. News and Views Guidelines:

1 - We begin the class by soliciting topics from the students for possible discussion. Sometimes topics can be combined.

2 - A list of all of the topics is created in order of suggestion.

3 - A vote is taken for each suggested topic. Students can vote for as many topics as they wish to discuss.

4 - The voting results will be immediately shown.

5 - Topics are discussed by vote total (most to least) and in the event of a tie, either in order of suggestion or by SGL or group decision.

6 - The person who suggested a topic will be given 1-2 minutes to present their topic, either in advance of the vote if the topic is not clear, or when the topic is up for discussion.

7 - Important: We ask that everyone please keep your comments succinct - less than three minutes. Don't ramble and please refrain from repeating yourself or others. We want everyone to be able to speak.

8 - Everyone will get a chance to speak before someone is called on again for a given topic.

Thursdays

Birding Field Trip: Mount Lemmon from Tucson up to Summerhaven

Subject Area: Science/Math/Technology

Thursdays: Single session 7:00 AM - 12:00 PM    Start: Thu 7/18/24   End: Thu 7/18/24

Location: Mount Lemmon (Meet at McDonald’s) Class Size: 20

Course Description
Be an early bird and beat the heat for a few hours of birding up on Mt. Lemmon! We’ll meet up at 7:00 am sharp outside the McDonald’s at the bottom of the Catalina Highway, 9075 E Tanque Verde Rd. in Tucson. We’ll consolidate into fewer cars to drive up to Summerhaven, the resort town atop Mt. Lemmon. As we observe how the habitat changes with increasing altitude, we’ll stop at a couple of birding “hotspots” along the way to spot and identify some birds you won’t see down in Tucson: Mexican Jay, Rivoli’s Hummingbird, Acorn Woodpecker, Yellow-eyed Junco, and many more. We’ll be back at McDonald’s by 12:00 noon. Minimal walking on flat ground and paved paths; the air gets a bit thinner at 8200 feet, but we’ll take it slow. Wear comfortable shoes, sun protection, and bring water and a snack. Prior birding experience is fine but not required; definitely bring binoculars if you have or can borrow them.
