Welcome to OLLI-UA Spring 2024!

This Spring we are excited to offer in-person classes at our Central Tucson and Green Valley campuses as well as online classes hosted on Zoom. Don't miss a great variety of field trips, social events, and more.

Spring Session Overview

- Spring is 13 weeks from January 16 to April 12
- There are 190+ offerings across OLLI-UA including field trips, social events, with more dining out options to be announced.
- Central Tucson classes run Tuesday through Friday
- Green Valley classes run Wednesday and Thursday for 8 weeks starting February 7
- Online classes run Monday through Friday
- Note additional online offerings outside our schedule from our OLLI sharing partners at Chico State and RIT.

Registration

- Priority Request Registration (PRR) ends Monday, December 11 and runs Tuesday, December 12.
- Registration confirmation emails will be sent after PRR runs on the 12th.
- Open Registration begins after PRR runs on Tuesday, December 12. During open registration you can continue to add (and drop) classes first come, first serve throughout the term.

What's Priority Request Registration (PRR)?

PRR is a stress-free pre-registration process that allows you to prioritize and request the classes you most want to attend. At the end of PRR, our registration system officially enrolls members in classes, filling each seat based on the priority of the request. This is helpful for classes with limited capacities that fill quickly. It is important to give small capacity classes a higher priority if they are important to you.

If a class fills, a waiting list is started and ordered by the next priority assigned. More detail on this process along with our registration planner materials can be found on our website: olli.arizona.edu.

Memberships

What you can register for depends on the membership you purchase. Spring session is open to our 23-24 annual members and Spring/Summer 2024 members. If you are not a current member, OLLI-UA offers two membership options for this session:

- The Spring/Summer 2024 All OLLI / Central Tucson Membership costs $250 and allows you to register for all classes and social events online and in-person across OLLI-UA, including the Central Tucson campus, through 6/30/2024.
- The Spring/Summer 2024 OLLI-UA Green Valley and Online Membership costs $150 and allows you to register for all online classes, all social events, and in-person classes at the Green Valley campus through 6/30/2024. (Central Tucson classes are not included with this membership).

Complete membership purchase details can be found at olli.arizona.edu along with information on available financial assistance.

COVID-19 Policy

OLLI-UA 501(c)(3) is taking steps to help ensure the health and well-being of our learning community. Our website is the best place to stay informed of the current policy: olli.arizona.edu/page/covid19.

Volunteer Opportunities

As a member-run, volunteer-led organization, OLLI-UA is dependent on our members stepping up to help in ways big and small. Please consider giving your time and expertise to OLLI-UA. It is also a great way to meet fellow members and develop lasting friendships!

Central Tucson Campus

The Central Tucson campus is located at 4485 N 1st Avenue, Tucson AZ, on the NW corner of 1st Avenue and Wetmore Road. The facility includes three large classrooms, a member lounge with coffee service for eating or just gathering, and ample parking.

Green Valley Campus

The Green Valley campus is located at the Community Learning Center at 1250 W. Continental Road, Green Valley, AZ, and has spacious classroom space in a former community college facility operated by Pima County. It has ample parking and a small lounge area.

Online Classes

Online classes are hosted using Zoom. There is no cost or account needed for members to use Zoom. Zoom is generally easy to use and works across many different devices and operating systems. Learn more on our Zoom resources page: olli.arizona.edu/page/zoom

Planning Tools

Keep in mind all offerings are subject to change. See our website’s Class Catalogs page for the latest information and additional class registration planners.

Clicking on the class titles in this catalog will take you to the OLLI-UA registration page for each class.

Central Tucson Campus: In-Person Tuesdays

**Birding for Beginners (In-person class plus optional field trip)**

**Subject Area:** Science/Math/Technology

**Tuesdays:** 3 Sessions 9:00 AM - 10:45 AM  
**Start:** Tue 1/23/24  
**End:** Tue 2/6/24  
**Location:** Ocotillo Room  
**Class Size:** 45

**Course Description**
Over 45 million Americans report "birding" or "bird-watching" as a hobby; wouldn't you like to give it a try too? Birding is a wonderful way to connect with beautiful living creatures outdoors, to observe their amazing behavior, and to challenge your mind. This course is a brief, hands-on introduction to the basics of observing and identifying the birds you see in Southeast Arizona. In 3 class sessions, we'll meet and learn about some popular Arizona bird species (via photos and videos) while we learn about choosing and using binoculars, how to spot and identify birds in the field using clues of size, shape, color pattern, behavior, and more. You'll discover the Merlin phone app, an easy way to carry an expert bird guide in your pocket. The fourth class session (optional) will be a 2-hour morning guided field trip to one of Laura's favorite Tucson (or Green Valley if you prefer) birding "hot spots".

The class sessions (the same material) will be offered twice: in person at Central Tucson, and online via Zoom. Choose the learning format you prefer. Field trips are in person, of course. You'll want to buy (or at least borrow) binoculars ($100 and up). If you don't already have binoculars, hold off buying until after the first class to learn more about how to choose before you buy.

**Instructor:** Laura Couchman

Laura Couchman is a dedicated amateur birder, spotting and identifying birds for 19 years. Laura and her husband Bill go birding locally and wherever they travel, and have lived in Tucson since 2014. Laura has been an SGL for previous OLLI classes about birds and birding, including habitat, woodpeckers, birds of prey, hummingbirds, and birders' tech tools.

She is also a volunteer field trip leader for the Tucson Audubon Society.

**Hablando**

**Subject Area:** Literature/Writing/Language

**Tuesdays:** 12 Sessions 9:00 AM - 10:45 AM  
**Start:** Tue 1/23/24  
**End:** Tue 4/9/24  
**Location:** Palo Verde Room  
**Class Size:** 20

**Course Description**
This is a class where the students and the SGL converse in Spanish. Only Spanish is used in class. We will choose the topics and activities for our conversations as a group. Students will be encouraged to use a dictionary in order to learn words they might need to discuss a topic or participate in an activity. A basic Spanish language textbook is also useful when reviewing grammar. Topics are wide open and may include videos, photos, works of art, Spanish language songs and more. This class will expand participants' vocabulary and encourage students to review grammar topics. Because human communication involves more than the spoken word, such as facial and hand gestures, it will only be given in person. Microphones are provided by OLLI and the sound is clearer than that produced by Zoom.

**Instructor:** Susan Sotelo
Susan Sotelo began her teaching career as a graduate student instructor (GAT) at the University of Arizona. After receiving a MA, she taught K-12 students. Then she returned to the University of Arizona and again taught in the basic language program. After receiving her PhD in Spanish Language Literature, she taught at Pima College. She also taught privately and tutored students. Then she took a job teaching for the Spanish Club in Sun City Vistoso in Oro Valley. This began her experience as a teacher of adult/senior students. She has taught Spanish at OLLI Central Tucson since 2015.

**Listening to Jane Austen's Persuasion**

**Subject Area:** Arts/Culture, Literature/Writing/Language

**Tuesdays:** 12 Sessions 9:00 AM - 10:45 AM

**Start:** Tue 1/23/24  **End:** Tue 4/9/24

**Location:** Saguaro Room  **Class Size:** 55

**Course Description**

"As Jane Austen wrote and rewrote her novels, she read them aloud to family and friends. They heard the stories, seeing them in their minds before reading them. This class will listen to much, possibly all, of her last novel Persuasion. We will look at Jane Austen's life and intriguing family, the historical and social milieu she grew up in and what her readers would have taken for granted. While her plots have been adapted as romances for our era, for her peers she was writing on status, rank, and class. To her readers her satire, humor and irony had bite. Jane Austen wrote about the strictly defined limited choices and lack of power that most women in the gentry faced. She and her characters often faced a life of denial and dependency. If you want to prepare, (which you don't have to) listen to an audiobook before you read Persuasion. YouTube has many free versions. We will listen to the Greta Sacchi version on Amazon's Audible. Please don't watch any movie version of this or other Jane Austen movie. The images will stick in your mind. We will watch the best movie version at the last class. If you want to read a biography, I suggest Jane Austen at Home by Lucy Worsley.

**Instructor:** Kathleen Reeve

Kathleen Reeve started out as an English major but became a newspaper photojournalist for the Chicago Sun-Times in what she didn't know would be the golden age of newspaper photojournalism before newspapers crashed. She has taught eight OLLI classes.

**Erik Larson**

**Subject Area:** Arts/Culture, History/Current Events, Literature/Writing/Language

**Tuesdays:** 4 Sessions 11:00 AM - 12:45 PM

**Start:** Tue 1/23/24  **End:** Tue 2/13/24

**Location:** Ocotillo Room  **Class Size:** 65

**Course Description**

Erik Larson is an American journalist and author of mostly nonfiction books. He has written a number of bestsellers, including The Devil in the White City (2003) about the 1893 World’s Columbian Exposition in Chicago and a series of murders by H. H. Holmes that were committed in the city around the time of the Fair. The Devil in the White City won the 2004 Edgar Award in the Best Fact Crime category, among other awards. Our class sessions will include video clips of the following: a brief summary of each novel, pertinent historical information, an examination of Larson’s reason for selecting this project and a number of interesting and enlightening author interviews. Novels include Issac's Storm, Devil in the White City, Thunderstruck, Dead Wake, In the Garden of the Beasts, and The Splendid and the Vile.

**Instructors:** Arnie Bianco, Susan Williams
Arnie is a long time retired educator as a teacher, school principal and adjunct instructor at Chapman University, NAU, Brown Mackie College, and Brookline College. Arnie is an active OLLI member. He has been a teacher for a number of years and has done relationship workshops in more than 10 states. He is a published author who has always loved to teach. His wife is presently a teacher. This is Susan William's 5th year at OLLI. She started as a student and quickly became a tech-host, co-host and now a member of the OLLI board. Her technical skills and ability to be flexible during a class session and in general is very rewarding. She is a terrific partner.

**Inside the Renaissance of a Migrant Child**

**Subject Area:** Arts/Culture, Literature/Writing/Language, Philosophy/Spirituality/Religion

**Tuesdays:** 6 Sessions 11:00 AM - 12:45 PM  
**Start:** Tue 1/23/24  
**End:** Tue 2/27/24  
**Location:** Saguaro Room  
**Class Size:** 20

**Course Description**

My endeavor is to present my life through art, music, storytelling, and theater. My background encompasses the socio-cultural anthropology and philosophy I learned while putting my then-husband through his four bachelor of arts degrees from UCSB and his doctoral degree from American University in Washington, D. C. during the Nixon era. Our travels took me to every capital city of Mexico to gather doctoral research data and interviews from the Huichols in an effort to compare Charles Lumholtz’s initial study of their communities with their lives in the mid-1970s. I often performed over those years as a singer and entertainer at parties. When my children were grown, I made it my goal to achieve my own college credentials. In doing so, I also became a motivational speaker and educator in the U. S. and Mexico.

I am still asked if I am performing or presenting anywhere because people want to hear my "story". This class will test the interest of those who did not begin farm labor at the age of two as the youngest of twelve children and lived in railroad boxcars on farms throughout California. The stories unfold from governor’s mansions in Mexico to the homes of Hollywood icons in Malibu to classrooms in Tucson using presentations, realia, conversations and writings, this class will engage your humanity. This is my story.

**Instructor:** Alicia C Jimenez  
California born and raised. Alicia C. Jimenez, Ph. D., has been a guest speaker and presenter at conferences and seminars in the U. S. and Mexico. Her Master’s thesis was based on interviews with women who were 85 to 110 years old. It won Best Thesis in English, the College of Humanities, Best Graduate Research in History, and other awards in Comparative Literature, Chicano/Latino Studies, and Interdisciplinary Studies. She is a U of A graduate in the College of Education and is Pima Community College certified to teach in seven subjects. Her friends consider her an Iron Woman and a Renaissance woman.

**Thomas Hardy: Two Companion Novels**

**Subject Area:** Literature/Writing/Language

**Tuesdays:** 12 Sessions 11:00 AM - 12:45 PM  
**Start:** Tue 1/23/24  
**End:** Tue 4/9/24  
**Location:** Palo Verde Room  
**Class Size:** 35

**Course Description**

At the height of his career as a novelist and poet, Thomas Hardy wrote two companion novels telling the story of a sculptor who seeks to understand the
concept of "the ideal" in art and in life. Both novels are usually published in one volume and employ a different writing style than in Hardy's other novels. The text for this course is the Penguin Classics edition "The Pursuit of the Well-Beloved and The Well-Beloved," in one volume edited by Patricia Ingham. The ISBN is 978-0-140-43519-1.

Instructor: Suzanne Peters
Sue Peters is an experienced study group leader.

**Chen Village Tai Chi**

**Subject Area:** Health/Wellness, Philosophy/Spirituality/Religion

**Tuesdays:** 10 Sessions 1:00 PM - 2:45 PM

**Start:** Tue 1/23/24  **End:** Tue 3/26/24

**Location:** Saguaro Room  **Class Size:** 20

**Course Description**

No previous Tai Chi experience is necessary. All the movements are slow and gentle, and no martial arts applications will be taught or practiced in this study group. These methods may help lessen body pain, correct spinal misalignment, cultivate a sense of internal energy, and rest the mind.

Participants can wear comfortable roomy or stretchy clothing and some soft tai chi shoes or socks to wear on their feet. Students will be expected to assist with the movement of tables and chairs to make room for practice. Face masks, which completely cover mouth and nose are required for this study group. They must be worn properly at all times while in class.

Instructor: Randall Krause
Randall Krause served many years as an attorney and conflict resolution facilitator. Later, he studied counseling and received a M. A. in interdisciplinary consciousness studies with an emphasis in holistic health counseling, was certified and served as a personal coach and mentor. He studied Effective Communication intensively and also studied The Gremlin Taming Method for more than 10 years. In addition, Randall is a senior mentor and teacher in the Himalayan yoga meditation tradition and is registered with Yoga Alliance (YA) as an Experienced Yoga Teacher and a Continuing Yoga Education Provider.

**Tuesdays:** 6 Sessions 1:00 PM - 2:45 PM  **Start:** Tue 1/23/24  **End:** Tue 2/27/24

**Location:** Ocotillo Room  **Class Size:** 65

**Course Description**

Docents Art Talks again are presented with new topics and ideas. This popular offering continues to enlighten and excite. This class will be a hybrid presentation again.

Instructor: Dick Woodward
Dick Woodward is a 10+ year OLLI-UA member and an SGL who has led classes in literature, drama and the visual arts. He prides himself as an engineer who uses OLLI to round out his liberal arts education in his dotage. He looks forward to sharing his enthusiasm for lifelong learning.

**Positivity by Barbara Fredrickson, PhD**

**Subject Area:** Social Sciences

**Tuesdays:** 6 Sessions 1:00 PM - 2:45 PM  **Start:** Tue 1/23/24  **End:** Tue 2/27/24

**Location:** Palo Verde Room  **Class Size:** 30

**Additional Costs:** Book can be found at Amazon on kindle for $9.99.

**Course Description**

We will read and discuss the book Positivity by Barbara Fredrickson, PhD (one chapter per week). She is the first researcher to uncover the important
role of positive emotions in health, wellness, longevity, creativity, and life. She discusses her research into what positivity is and isn't, why you need it, and more importantly how to increase your positivity ratio. Check out www.positivity.com for more information. This is a small group discussion class, and we will be breaking down into groups of six to discuss the ideas presented in the chapter.

People will be expected to have read the chapter and the discussion questions and be willing to vote for the 3 most popular questions on the provided question list to discuss in their small group. Then we will engage at the end and share some of our new understandings of the role of positive emotions in our lives. Students must obtain a copy of the book at the library, kindle or bookstore prior to class. Kindle edition is available for 9.99 on Amazon.

Instructor(s): Jan Fulwiler

Jan Fulwiler, PhD is a retired psychologist from the University of Wisconsin who has taught and studied positive psychology. She facilitated 15 semesters of positive psychology classes at UW Madison Senior Learning. She loves learning and sharing scientific research on what makes people thrive throughout their life span.

**Documentaries to Make You Think**

**Subject Area:** Social Sciences

**Tuesdays:** 12 Sessions 3:00 PM - 5:00 PM  
**Start:** Tue 1/23/24  
**End:** Tue 4/9/24  
**Location:** Ocotillo Room  
**Class Size:** 65

**Course Description**

The documentaries shown in this class are diverse, thought-provoking, educational, and informational. I attempt to get documentaries with English subtitles. Please sign into class by 2:45 pm. Our classes run on Tuesdays from 3:00 pm until at least 5:00 pm. Some of the documentaries will last 2 hours plus time for some discussion. Generally, the classes will run longer to allow for discussion, but please feel free to sign off whenever necessary.

**NOTE:** Please do not expect a 4G, surround sound experience, rather it may have more of a “drive-in theater” feel to it. It is also helpful to shut down all programs besides Zoom on your computer, iPad or iPhone to help minimize any lag. Exact Documentary Listing TBD.

This class will be offered as a hybrid, both in-person and online. This is the in-person option.

Instructors: Mallory Riegger, Paul Waugaman, Susan Williams

As a UA graduate with a BS in Accounting, Mallory has worked in Accounting, Marketing and Management roles since 1985. She has been actively volunteering since 1997 in accounting, IT, training, and leadership roles including Scouting and OLLI-UA. She has been an SGL since 2018, on the AV Committee since 2018, Zoom Support & Tech Training (2020/21), tech host (ongoing), OLLI-UA recordings editor and manage the DVD library. Tucson's Other Legendary Musician

Subject Area: Arts/Culture
Tuesdays: Single session 9:00 AM - 10:45 AM
Start: Tue 2/13/24 End: Tue 2/13/24
Location: Ocotillo Room  Class Size: 20

Course Description
Thirty-three years before Linda Ronstadt burst onto the music scene, another native Tucsonan, seventeen-year-old Edward "Lalo" Guerrero, wrote a song which would be recorded by Mexican ranchera icons, and considered by some as "an unofficial anthem of Mexico". For over six decades thereafter, Guerrero continued to develop a vast discography, penning and singing his own music for the English-speaking Mexican-American community.

His music evolved with the times, reflecting Mexican-American musical tastes, from the zoot suit and pachuco music of the 40s and 50s to the struggles during the Farmworkers Union strikes and beyond. Afterwards, Guerrero transitioned to writing and recording whimsical parodies of popular tunes ("I Left My Car In San Francisco" and "Mamas, Don't Let Your Babies Grow Up To Be Busboys" come to mind). His work has been by recognized by the Smithsonian Institute and he was awarded a Presidential Award by President Clinton. We will delve into his rags-to-riches story through videos and in his own words.

Instructor: Jorge Tapia
Jorge Tapia is a retired TUSD teacher, retired Master Sergeant-US Army, and spent 16 years as an adjunct faculty member of the NAU-Tucson campus. His interests are hiking, listening to all genres of music and traveling. He has been a member of OLLI since 2013.

Tuesdays: 8 Sessions 9:00 AM - 10:45 AM
Start: Tue 2/20/24 End: Tue 4/9/24
Location: Ocotillo Room Class Size: 50

Course Description
The Cold War starts with the Western nations' intervention in the Russian Revolution in 1917. The Cold War becomes an official term in the 1940s and moved from Russia to China in the last two decades.

In this class, we will cover the Truman Doctrine of Containment, our clash with the Russians over what should control Europe and the world, Communism vs. Democracy, and Socialism vs. Capitalism. We will be discussing the Arms Race, the Space Race, and MAD (Mutual Assured Destruction), Failsafe, the Cuban Missile Crisis, the Iron Curtain, the Marshall Plan, the Berlin Airlift, the North Atlantic Treaty Organization vs. the Warsaw Pact, the fall of China, and hot spots such as Korea, Vietnam, and Afghanistan, and the fall of the USSR. Now it is China vs. the United States and the effects of all these things on the population of America and its economy.

We will also be examining the political, social, and economic events taking place in the United States from the 1930s to the present and how they were affected by the Cold War.

Instructor: Jerry Howell
Jerry Howell has taught OLLI classes for over 5 years. He has 46 years of teaching experience at the high school and college level. He received his B. A from San Jose State University, M. S. from Cal Poly, San Luis Obispo, and Ph. D. from Oregon State University. His teaching experience has included graduate-level courses and Advanced Placement in U. S. History, Human Geography and World History.

Women of the Old West

Subject Area: History/Current Events

Tuesdays: 6 Sessions 11:00 AM - 12:45 PM
Start: Tue 3/5/24 End: Tue 4/9/24
Location: Saguaro Room Class Size: 50

Course Description
The Women of the Old West class will highlight true stories of the pioneering wives, mothers, daughters, teachers, writers, entrepreneurs, and artists who shaped the old west and helped change the face of American history.

These women are not as famous or as well-known as Big Nose Kate, Calamity Jane, or Belle Starr. They may even be considered "ordinary" women, but their many accomplishments are "extraordinary." The indomitable spirit of these women, combined with their intellect, passion, and talent spurred them on to overcome challenges and become an inspiration to many. You may not recognize their names, but you will be amazed by their successes.

Instructor: Patricia Howell
Patricia Howell has taught OLLI classes and hosted field trips for the Southeast OLLI Campus for three years. She has 40 years of teaching and education administration experience at the high school and college level. Patricia received her B. S. and M. S. from Chadron State College in Nebraska and Ed. Instructor: Jan Fulwiler
Jan Fulwiler, PhD, is a retired professor from University of Wisconsin-Madison and senior learning facilitator. She loves crafts and has spent 6 years teaching beading to kids at the Boys & Girls Club of Dane County, WI. She also loves learning about art and likes to attend classes in pottery, drawing and art. Creativity and the Mature Mind is one of her favorite books. She wants to help OLLI members find meaning and purpose through art.

One-Hit Wonders

Subject Area: Arts/Culture

Tuesdays: 4 Sessions 1:00 PM - 2:45 PM
Start: Tue 3/5/24 End: Tue 3/26/24
Location: Ocotillo Room Class Size: 20

Course Description
For those of you (us) who grew up listening to pop/rock music on the radio, and later, watching music videos, I invite you to join me on a nostalgic trip back to the music of our adolescence, and younger and older adulthood. I will focus on singers/bands that released a recording which
climbed the Billboard Top 100 and other charts once, but which later faded into obscurity, or which continued producing albums, but failed to reach those lofty heights again.

We will watch snippets of selected one-hit wonders from the last four decades of the 20th century, music you either loved or hated. Hopefully, we will also answer the burning question on everyone’s mind at the time, "What are Dexys Midnight Runners, and why is everybody talking about them?".

Instructor: Jorge Tapia

Jorge Tapia is a retired TUSD teacher, retired Master Sergeant-US Army, and spent 16 years as an adjunct faculty member of the NAU-Tucson campus. His interests are hiking, listening to all genres of music and traveling. He has been a member of OLLI since 2013.

Crooners and Love Songs

**Subject Area:** Science/Math/Technology

**Tuesdays:** Single session 3:00 PM - 4:45 PM
**Start:** Tue 3/19/24 **End:** Tue 3/19/24
**Location:** Saguaro Room **Class Size:** 55

Course Description

Your basic star is the simplest entity in the Universe. It can be described by only five equations. Yet real stars also rotate and are typically either born with or generate internal magnetic fields. These characteristics are responsible for the activity that causes a star's brightness to be variable. Like us, stars age and this imposes internal chemical inhomogeneities that drastically change the star's structure, a situation complicated by ongoing infill from debris (comets) left over from the star's initial collapse from a gas cloud. Also on the surface, outflowing winds gradually change the star's mass and rotation rate. Oh, wait! In addition to all these processes operating in an isolated star, it's now known that, unlike the Sun, most stars are members of binaries or even trinary systems. As they age these stars swell and transfer matter to their co-orbiting companion. Whether single or binary members, they eject metal-rich matter back into space. This action seeds new generations of stars with heavy elements, and among other things, ultimately brings about our existence.

He likes to hike the Catalinas and folkdance.

**180 Days Around the World on a Cruise Ship – Take 2**

**Subject Area:** Travel/Entertainment

**Tuesdays:** 2 Sessions 1:00 PM - 2:45 PM  
**Start:** Tue 4/2/24  
**End:** Tue 4/9/24

**Location:** Ocotillo Room  
**Class Size:** 65

**Course Description**

What comes to mind when you hear about a six-month cruise around the world? Who takes a trip like this one and why? How do you prepare for leaving home? What do you pack? What is life like on board and off? How has the pandemic changed cruising (observations from the same ship with a similar itinerary three years later)? What happens if you get sick or must leave the ship due to an emergency? How are they handling COVID? Would you do it more than once?

In 2020, we boarded a ship for a 180-day cruise around the world. On March 13, 2020, everyone was notified that we had to disembark in two days in Rio de Janeiro after only 67 days on board. In 2023, we decided to try again. Comparing a similar itinerary on the same ship, how has COVID changed cruising? Find out about lessons learned - dos and don'ts.

Session 1 will address these questions with the remainder of class devoted to viewing photos from ports of call in the Americas. Session 2 will be devoted to ports from the rest of the cruise.

**Instructor:** Carol Hubbard

Carol loves travel and the experiences of foreign lands and people. She especially loves sharing her adventures with others and encouraging them to try something new.

**eBay & Craigslist: Selling the Treasures in Your Closet**

**Subject Area:** DIY/Self-Help

**Tuesdays:** 2 Sessions 1:00 PM - 2:45 PM  
**Start:** Tue 4/2/24  
**End:** Tue 4/9/24

**Location:** Saguaro Room  
**Class Size:** 55

**Course Description**

Your SGL Bill Couchman has made over $20,000 selling several hundred items on the online platforms eBay and Craigslist. Craigslist is best for large/heavy items. Bill will give you tips on what sells and doesn't, how to create an ad, set up payment arrangements, and how to wrap and ship.

In the first of two classes, Bill will demonstrate how the eBay site works. We will create an ad and hope that it sells by the next week's class. In the second week, we will discuss shipping options, packaging it, and printing a postage label.

**Instructor:** Bill Couchman

Bill Couchman holds a B. E. from Yale University and MBA from Carnegie-Mellon University. He has 33 years in planning management at Ford Motor Company, has taught 10 OLLI different classes, several of them multiple times, and is a 20-year tax pro and Master Tax Advisor for Block Advisors. 81 years old and not retired yet!
Wednesdays

**Capitalism, Government, Money, and the Future of the World – Part Two**

**Subject Area:** Civic Engagement/Community/Government, History/Current Events, Social Sciences

**Wednesday and Thursday:** 10 Sessions 3:00 PM - 5:00 PM  
**Start:** Wed 1/24/24  
**End:** Thu 2/22/24  
**Class meets two times per week**

**Location:** Saguaro Room  
**Class Size:** 50

**Course Description**

Last fall, we looked at the development of capitalism and industrialization, from their beginnings in the 1700s, through to the end of the 20th Century. We took note of the essential characteristics of capitalism, and how the economy has evolved, in demonstration of these characteristics, over the last 250 years. And we saw how capitalism in the US began operating in a much more stable and productive way, since around 1940. Then we explored exactly why it has been functioning in such a sustained, improved way.

Now it's time to consider what has happened so far in the 21st Century. Are recent events in accord with our earlier observations from history? And what does it all mean for the future? Most critically: Does the US have its act together, to be able to compete over the long haul against an immensely powerful, ascendant China? And what choices do we need to make, to ensure the most secure future for ourselves, and for future generations of Americans?

**Instructor:** Mark Yourek

Mark Yourek is a business professional who has spent his career working with dozens of the largest corporations in the world, both in the US and abroad, in the fields of consulting, strategy, and project management. His primary research interests include economics, government, and history. He holds a BA degree in International Relations from USC, and an MBA from UCLA.

**Cheng Man Ching – 37 Movement Tai Chi Chuan**

**Subject Area:** Arts/Culture, Health/Wellness

**Wednesday:** 12 Sessions 9:00 AM - 10:45 AM  
**Start:** Wed 1/24/24  
**End:** Wed 4/10/24

**Location:** Saguaro Room  
**Class Size:** 20

**Course Description**

We will attempt to learn the basic movements of this traditional Tai Chi form. This should be possible for a diligent student and interesting for the casual student. The emphasis of the Cheng Man Ching form is on balance, meditation and flexibility as defined by the pursuit of a practice of developing a soft and internal energy as applied to this counter-intuitive martial art form. It requires a mixture of standing, walking, moving and brief lecture on the origin of the art. Students will be expected to assist with the movement of tables and chairs to make room for practice (actually quite easy if time consuming).

**Instructor:** Duncan Scott

Duncan has been a member of OLLI for 15 years during which he has been a SGL for several humanities subjects. Tai Chi has been a lifetime interest as he has studied with renown teachers in San Francisco and Los Angeles over the years. He is interested in passing on his knowledge of Tai Chi as it is particularly valuable to seniors in their quest for balance, flexibility and good health.
Nuts and Bolts of the Criminal Justice System

Subject Area: Civic Engagement/Community/Government

Wednesdays: 6 Sessions 9:00 AM - 10:45 AM
Start: Wed 1/24/24 End: Wed 2/28/24
Location: Ocotillo Room Class Size: 30

Course Description
Americans are fascinated with TV shows and movies involving police, lawyers, trials, and everything related thereto. Unfortunately, most have at best a very superficial knowledge of how the criminal justice system works. This course is designed as a "nuts and bolts" discussion of the criminal justice system from arrest to appeal and everything in between. Participants will learn things such as, what does a Grand Jury really do? Who are the Grand Jurors? How are they selected? Can legally seized evidence be used at trial? Who decides what charges can be brought against an individual? How is a sentence determined? The course will consist of six 1" hour sessions presented by a lawyer with 54+ years of trial experience in the areas of prosecution, criminal defense, personal injury, and civil rights litigation, and will include, from time to time, video clips and war stories. When you are done with this course, you won't be a lawyer, but you will have a much better practical understanding of what is happening in any given case.

Instructor: Stephen Weiss

Stephen Weiss is a recently retired trial attorney who has practiced in Tucson for 54+ years. His practice has been primarily in 3 areas: criminal defense, civil rights involving police misconduct, and personal injury.

Short Stories by Gabriel García Márquez

Subject Area: Literature/Writing/Language

Wednesdays: 8 Sessions 9:00 AM - 10:45 AM
Start: Wed 1/24/24 End: Wed 3/13/24
Location: Palo Verde Room Class Size: 20

Course Description
During this eight-week class, we will read and discuss in Spanish four short stories from the 2020 collection Todos Los Cuentos which contains all the stories from García Márquez’s four previously published collections dating from 1947 to 1982. We will read one story from each original collection. These collections represent the author’s changing and continuing areas of interest and literary devices. García Márquez went through life with a very active sense of humor which we will all enjoy. Participants will read the selections prior to class and then the selection will be discussed during two class sessions.

Participants will purchase the Kindle Edition. For reading the Kindle Amazon app is free and can be used on any device. A Kindle book has several advantages over a traditional text: links to a Spanish language dictionary, to Wikipedia, and a bilingual Spanish-English dictionary. Additionally, there is a notebook which allows the reader to take notes linked to the text. It is recommended that you also purchase the Audible edition. The Audible app is free, and you can control the reading speed.

Instructor(s): Susan Sotelo

Susan Sotelo began her teaching career as a graduate student instructor (GAT) at the University of Arizona. After receiving a MA, she taught K-12 students. Then she returned to the University of Arizona and again taught in the basic language program. After receiving her PhD in Spanish Language Literature, she taught at Pima College.
She also taught privately and tutored students. Then she took a job teaching for the Spanish Club in Sun City Vistoso in Oro Valley. This began her experience as a teacher of adult/senior students. She has taught Spanish at OLLI Central Tucson since 2015.

**Film Discussion Class**

**Subject Area:** Arts/Culture  
**Wednesdays:** 12 Sessions 11:00 AM - 12:45 PM  
**Start:** Wed 1/24/24  
**End:** Wed 4/10/24  
**Location:** Saguaro Room  
**Class Size:** 55

Course Description  
We will meet weekly to discuss a film that has been watched by the class. The film selection will be assigned to or voted upon by class members. A class member will lead the discussion for the movie. This class has been ongoing for several years and generates lively and engrossing discussions as members dissect and compare films, frequently calling upon their own personal and professional experiences. Please consider volunteering to lead the discussion. A guide to how to lead the discussion will be given out prior to the first session. Movies will be from The Loft, local theaters as well as Netflix/Amazon.

Instructor: Rob Getlan  
Rob Getlan has always been an avid film enthusiast. This class has been a great way to see and discuss the new releases from Netflix, Amazon, and The Loft.

**News and Views**

**Rogue Theatre Presentation**

**Subject Area:** Arts/Culture  
**Wednesdays:** Single session 11:00 AM - 12:45 PM  
**Start:** Wed 1/24/24  
**End:** Wed 1/24/24  
**Location:** Ocotillo Room  
**Class Size:** 65

Course Description  
The Rogue Theatre is an intimate 160-seat Small Professional Theatre in the heart of Tucson, housed in The Historic Y, adjacent to a large parking lot. The theatre is what is called a "black box," a design that promotes flexibility in staging and seating. Cynthia Meier and Joseph McGrath founded the Rogue 18 years ago. The Rogue emphasizes quality. The productions challenge, stretch, and invigorate the audience. They emphasize language and literature. The Rogue family includes highly talented ensemble performers who can make the audience laugh, cry, and think. There are five fully produced plays each season, always including one by Shakespeare. The Rogue also offers Play Readings that are rehearsed for about 12 hours and performed with scripts in hand. In this single session, Joe and Cindy will describe the Rogue and illustrate their acting skills.
with one or two brief scenes. They may bring another actor with them or their musical director to add to the performance.

Instructor(s): Eloise Gore, Allen Hile

Eloise Gore has been an OLLI member for over five years. Some of her favorite classes have been presentations by local performance organizations: True Concord, Tucson Symphony Orchestra, and the Rogue Theatre. Eloise has missed these entertaining and intimate introductions to local performers. Now Eloise would like to resume these kinds of classes beginning with the Rogue Theatre.

Allen has also been a member of OLLI for over five years and attended dozens of classes.

**Writing the Good Times: Memoir**

**Subject Area:** Literature/Writing/Language

**Wednesdays:** 12 Sessions 3:00 PM - 4:45 PM

**Start:** Wed 1/24/24  **End:** Wed 4/10/24

**Location:** Palo Verde Room  **Class Size:** 30

**Course Description**

This semester at OLLI, as in past semesters, I will be teaching Creative Writing with an emphasis on Memoir writing. Remembering and writing the "stories" of our lives is important for many reasons; nostalgia, therapy, leaving a legacy for our children and grandchildren and others who may be interested in life stories interestingly written. We'll talk about style, descriptions, where to begin our memoir and what to include and exclude. It's always fun and fascinating to write our "life stories".

**Instructor:** Lollie Butler

Lollie Butler has taught creative writing to high school students and Arizona incarcerated women. She holds a master's degree from The University of Arizona and currently is a published writer of memoirs, poetry, and writes music lyrics for a nationally known composer. She has received many awards in writing including a fellowship from the Arizona Commission for the Arts.

**Solar Storms and the Origins of Religion**

**Subject Area:** Literature/Writing/Language, Philosophy/Spirituality/Religion, Science/Math/Technology

**Wednesdays:** 2 Sessions 1:00 PM - 2:45 PM

**Start:** Wed 2/7/24  **End:** Wed 2/14/24

**Location:** Palo Verde Room  **Class Size:** 20

**Course Description**

The sun is a variable star. With major flare cycles of about 12,000 years (calibrated from ice core samples) and intermediate major plasma storms of 6,000, 3,000 and 1,500 years, catastrophes depicted in ancient legends, myths and sacred texts can be attributed to devastating solar eruptions (CME's, SPE's and cosmic rays). Scientists like Dr. Anthony Peratt at the Los Alamos laboratory have produced convincing evidence that Paleolithic and neolithic petroglyphs and cave art depict witnessed displays of solar plasma bombardment. A minor but significant solar storm in modern times was the Carrington Event of 1859 which brought down telegraph systems worldwide and lit the skies with aurorae for days. In this class you will learn how the sun and Earth connect electromagnetically and about our present exposure to solar flare risks in a tech-dependent age.

**Instructor:** Donald Berk

Donald J Berk is a retired tech entrepreneur. Before starting his software products company, Fortress Technologies, he held CIO executive positions in NASDAQ computer and telecom firms, and served as VP of manufacturing for a division of Caterpillar. He holds an MFA from Bennington College and completed the University of Manchester/Jodrell Bank program in radio astronomy. He also holds a Commercial Pilot and FAA flight instructor rating. He is an Air Force Vietnam-era veteran.
Hear Me Roar

Subject Area: Health/Wellness, History/Current Events, Science/Math/Technology

Wednesdays: 2 Sessions 11:00 AM - 12:45 PM
Start: Wed 2/21/24 End: Wed 2/28/24
Location: Ocotillo Room Class Size: 65

Course Description
This is all about amazing women in science and medicine. They left their mark and changed the world. From goddesses to saints (and maybe a few sinners), from the ancients to modern day, to the ordinary, everyday women who stepped up and accomplished extraordinary things. There’s Tapputi (1200 BCE), credited with being the world’s first chemist. Maria the Jewess lived somewhere between the first and third centuries CE and we use her inventions even today. Ever hear of Professor Suzanne Simard, the Tree Whisperer? Dr Virginia Apgar? Dr Francoise Barre-Sinoussi? What about Dr Rebecca Lee Crumpler, the first black female to graduate from a U. S. medical school? Or Mary Elizabeth Mahoney, the first African American woman to graduate from nursing school. Then there is Dr Sue. She was the first Native American physician. Wait to you hear her story. There are so many more that have made our lives better. We don’t have time to highlight everyone, but we honor them all. Come meet them. They won’t disappoint.

Instructor: Michele Romano

Dr. Michele Romano is a Family Physician in Fairfax, Virginia who retired in 2015. She attended VCU (Virginia Commonwealth University) School of Medicine and was elected into the AOA National Medical Honor Society in her junior year. She held a faculty appointment as an associate professor of clinical medicine at VCU and served on both the VCU Board of Trustees and the VCU Health System Board. She was regularly listed as a Top Doc in the Washingtonian Magazine. Dr. Romano was also a nurse for 12 years before going to medical school. She opened and supervised the first intensive care unit in Fairbanks, Alaska in 1970. She and her husband have a second home in Tucson where they spend the winter.

Artful Shadows: Shadows in Painting, Photography, Film and Architecture

Subject Area: Arts/Culture, Science/Math/Technology

Wednesdays: 5 Sessions 1:00 PM - 2:45 PM
Start: Wed 2/21/24 End: Wed 3/20/24
Location: Palo Verde Room Class Size: 35

Course Description
Shadows are all around us. They occur when objects block natural light from the sun or artificial light from human-made sources. But in addition to the shadows we see everywhere in our environment, there’s another type of shadow: pictures of shadows that we see in paintings, photographs, and films. And it is these shadow-pictures that this course is about. We will describe the history of shadows (1) in paintings stretching from cave art to paintings of the Renaissance, Andy Warhol, and beyond, (2) in photographs from early photograms to modern photographs taken by Ansel Adams in nature and Henri Cartier-Bresson on city streets, and (3) in films from the first moving pictures to “film noir” detective films like The Maltese Falcon and dramatic films like The Godfather. After surveying the history of each type of art we will describe the creative process involved in making each type of picture and the cognitive processes involved in perceiving and understanding these pictures. We will see that shadows can shape perceptions, meanings, emotions, and storylines and that each type of art has its own special properties. We will also consider topics such as camera-less photography, shadow-
sculptures, computer editing and creation of shadows, and how architects have created buildings that shape the patterns of light and shadow both inside and outside of buildings.

Altruism Works: Exploring Local Non-profit Opportunities

Subject Area: Civic Engagement/Community/Government, Crafts/Cooking, Social Sciences

Wednesdays: 6 Sessions 9:00 AM - 10:45 AM
Start: Wed 3/6/24 End: Wed 4/10/24
Location: Ocotillo Room Class Size: 65

Course Description
Each week we will invite a different non-profit to come and talk about their mission, their work in Tucson and volunteer opportunities available to senior learners.

The goal of this class is to help members find a place to use their skills, and passion to give back to the greater community.

Instructor: Jan Fulwiler, PhD

Jan Fulwiler, MSSW, PhD is a retired psychologist who has facilitated positive psychology classes for 15 semesters at UW-Madison Division of Continuing Education and PLATO life long learning at the University of Wisconsin Madison. She is especially interested in positive psychology and what helps people thrive throughout their life span. She believes strongly in giving back to the greater community and believes in the power of altruism.

Foster Care Review Board Volunteers – Who, What, Why

Subject Area: Civic Engagement/Community/Government, History/Current Events, Social Sciences

Wednesdays: Single session 11:00 AM - 12:45 PM
Location: Ocotillo Room Class Size: 65

Course Description
This class will provide an overview of the AZ Foster Care Review Board (FCRB) Program and the vital oversight role volunteers serve in Department of Child Safety (DCS)/court-involved cases. What You Will Learn: Role of FCRB board members; requirements and training; anatomy of a child's case review; how FCRB fulfills federal and state mandates; how board members advocate for each child/family and identify systemic issues.

We all hear about neglect and abuse cases. If you know someone who has an interest in helping children, FCRB is one way to become involved, be part of the solution, and have a meaningful impact on children's lives.

Instructors: Sandy Guizzetti, Esmeralda Cantano

Sandy Guizzetti, has been with the Arizona Supreme Court Foster Care Review Board (FCRB) for over 33 years and is currently the regional manager for the Tucson Office. The FCRB is a volunteer program, administered by Supreme Court to provide an
independent review, of every child who is placed in out-of-home (foster/kinship) care. FCRB volunteers review each child’s case and provide unbiased recommendations to the Judge.

Esmeralda Cantano has been a supervisor for the Foster Care Review Board Program for over 15 years and was previously a case manager for the Department of Child Safety.

**Exploring SW Culture With a Focus on Navajo Textiles & Their Designs**

**Subject Area:** Arizona History/Culture, Arts/Culture

**Wednesdays:** 3 Sessions 1:00 PM - 2:45 PM  
**Start:** Wed 3/6/24  
**End:** Wed 3/20/24  
**Location:** Saguaro Room  
**Class Size:** 20

Course Description

Join a group of like-minded folks to learn about Navajo culture and textiles by sharing your knowledge or a desire to learn more about a southwestern art form. You can bring a textile to share and discuss with the group. One can learn something from every textile as each is a unique inspiration by the individual weaver. You can join to enjoy the exciting colors and artistic patterns or delve into techniques and histories of different regional styles as promoted by various trading posts.

Instructor: Marie Lynn

As a resident of the SW for over 50 years, 35 of which have been in Tucson, the history of native cultures and their arts have been appreciated as well as studied. Textiles, especially Navajo ones, have been a focus as various trading posts were visited to learn about their influence on various styles and by Navajo culture.

**The Plantagenets: The Real Game of Thrones**

**Subject Area:** History/Current Events

**Wednesdays:** 3 Sessions 9:00 AM - 10:45 AM  
**Start:** Wed 3/20/24  
**End:** Wed 4/3/24  
**Location:** Palo Verde Room  
**Class Size:** 20

**Course Description**

Session One: Explore the dynasty's evolution from 1155 to 1327 and its brutal struggles for power fueled by ambition and greed. We begin with nineteen-year-old Henry, eldest son of the Duke of Anjou and Empress Mathilda, and his lust for France's thirty-one-year-old queen, Eleanor of Aquitaine, portrayed by Peter O'Toole and Katherine Hepburn in the 1968 film The Lion in Winter.

Session Two: Focus here is on the reign of King Edward III, a pawn in the murderous "game of thrones" between his parents, King Edward II, and Isabella, the she-wolf of France. From his reign's tumultuous beginning, Edward III reigned for fifty years. Upon King Edward's death, he was succeeded by his 10 YO grandson, Richard II. A jealous rivalry arose between Richard and his cousin, Henry Bolingbroke. Henry deposed Richard and crowned himself King Henry IV.

Session Three: This program will touch on the reigns of the Lancastrian King's Henry IV and Henry V but will concentrate primarily on the reign of Henry VI and his bouts of mental illness. The highest-ranking male member of the royal family, Richard, Duke of York, stepped into the void threatening the power. It's important to understand the lines of succession to comprehend the threat to Queen Marguerite. At York's rise in authority, the contention between them escalated, spiraling into all-out civil war, much like that in Game of Thrones between the Lannisters and Starks.

 Instructor(s): R Jay Brenner
R Jay Brenner is an independent researcher of Plantagenet history and a graduate of Miami University with a BA in Communication. Her article, "Joan of Kent, the First Princess of Wales", appeared in the Ricardian Bulletin, distributed internationally by the Richard III Society. She is also a member of the Historical Novel Society.

What Happened to Journalism? Where Can You Find News Now?

Subject Area: Civic Engagement/Community/Government, History/Current Events

Wednesdays: 4 Sessions 1:00 PM - 2:45 PM
Start: Wed 3/20/24 End: Wed 4/10/24
Location: Ocotillo Room Class Size: 50

Course Description
In the past 25 years, journalism has changed beyond recognition. This class – taught by a veteran journalist with over 30 years of experience – will begin by looking at the journalism that OLLI members grew up with: daily newspapers, weekly magazines, and limited TV and radio newscasts. The goal was to present an objective view the world, summed up by Walter Cronkite's famous sign-off, “That's the way it is.” You will learn what it was like to work as a journalist in this era, covering Congress, foreign affairs, business and topics ranging from professional sports to religion, education and politics.

The second class will examine the revolutionary changes that forced tens of thousands of journalists out of the field, greatly diminished the size and influence of traditional media, and led to the emergence of highly opinionated alternatives, including cable news, podcasts, and internet-based outlets. Before, major journalism outlets largely agreed on the “facts” and the story. Now, there is no consensus and opinion is often more important than facts. All this has helped drive the polarization of our society.

Our third class will include a panel of Tucson-based journalists reflecting on how all these developments have changed journalism in Tucson. The final session will examine strategies for becoming an informed citizen in 2024. This will be an interactive class, and student participation will be welcomed and encouraged.

Instructor: William (Bill) Symonds

Bill Symonds worked as a professional journalist for more than 30 years. His career included working at a major daily newspaper as well as Business Week Magazine, when it was the world's largest business magazine. During his career, he served as a Washington correspondent; a foreign correspondent (based in Europe and Canada); and was also based in Des Moines; Pittsburgh; Denver and Boston. He wrote about an extremely broad range of subjects and won numerous awards. His journalism career ended in 2006 during the cataclysmic decline in print journalism.

A World of Friends Is a World of Peace – Friendship Force

Subject Area: Arts/Culture, Travel/Entertainment

Wednesdays: Single session 11:00 AM - 12:45 PM
Location: Ocotillo Room Class Size: 35

Course Description
Friendship Force International connects people with its mission to promote global understanding across the national barriers that separate people. Members of the force are considered Ambassadors who travel throughout the world promoting peace, harmony, and goodwill across all cultures.

Instructors: Fran Pakenham, Irene Little, Steve Little
Fran has lived in Tucson since 1999 relocating from Milwaukee, WI. She is a retired real estate broker and holds a Business degree from Cardinal Stritch University. Since her retirement, Fran has become a curious traveler and enjoys meeting new people and learning about different cultures. In 2017 she learned about a friendship chapter and has been making friends around the world as an ambassador for Friendship Force International ever since. She is a member of OLLI and enjoys learning.

Stephen and Irene Little are retired professional astronomers. They have taught and interacted with other astronomers at various universities and colleges from Wellesley College, to the University of Colorado, to the University of Victoria. Their research interest is primarily in the late stages of stellar evolution.

**Autism Spectrum – It’s Not What We Thought**

**Subject Area:** Health/Wellness

**Wednesdays:** 2 Sessions 1:00 PM - 2:45 PM  
**Start:** Wed 3/27/24  
**End:** Wed 4/3/24  
**Location:** Saguaro Room  
**Class Size:** 55

**Course Description**

When people (grandparents, parents, teachers, nephews, etc.) realize that I work with autism spectrum, I get questions. I'll try to answer them in this presentation/discussion, as well as help you understand how an autistic person's mind might work. The more you understand, the more you can be helpful. In a nutshell: we are wired for intersubjective experiences, and we are wired to be investigative, to seek patterns, and to be curious. From the beginning, some infants are more interested in interactions with others, and some more interested in interacting with objects. With some, an interest in objects seems all encompassing. We now think that problems with coordinating a sensory motor sense with affects and cognitions, are difficult, and make it hard for the autistic child to reach toward others. The course will use video clips that illuminate the intersubjective world of an autistic person, as well as clips that parents have added to YouTube so that other parents can learn from them. I will also show some clips from documentaries of parents helpfully interacting with their autistic child. I'll also talk about how experiencing difficulties in childhood might impact the adult person on the spectrum, and how treatment might go. The class will be both lecture and discussion.

**Instructor:** Pamela Hays

Pam Hays is in private practice as a psychotherapist and psychoanalyst. She has worked with people on the autism spectrum since 2000, including their parents, and, in the last few years, has been engaged in understanding current research and clinical studies of autism. Her primary orientation is neuropsychological, developmental, cognitive, and psychoanalytic. She is also an adjunct faculty member at the level of Clinical Assistant Professor at University of Arizona Health Sciences Center. She has completed training in Psychoanalysis through the Arizona Center for Psychoanalytic Studies, and has trained in Mentalization Based Treatment, as well as DIR (Developmental, Individual Differences).

**Fascinating History of Cluckers (Chickens)**

**Subject Area:** Health/Wellness, History/Current Events

**Wednesdays:** Single session 9:00 AM - 10:45 AM  
**Start:** Wed 4/10/24  
**End:** Wed 4/10/24  
**Location:** Palo Verde Room  
**Class Size:** 35

**Course Description**

Join us for a fascinating and humorous look at chickens - the closest living relative to the mighty T
Rex dinosaur. The first domesticated cluckers were 15th-century red junglefowl in Southeast Asia kept for meat and religious ritualistic purposes. In the 16th century, chickens conquered the world by providing eggs and fresh meat on sailing ships which led to chickens all over the world. In the 20th century, cluckers played a valuable role in warfare as "Canary Girls" with their sensitivity to airborne toxins saving countless lives by detecting toxic gases on battlefields. Following WWII, the poultry industry underwent a radical transformation with automated egg collection and large-scale broiler production. Fast food chains like KFC and the development of "chicken nuggets" propelled chickens to the status of global food icons. Today there are four chickens in the World for every person and 279 eggs per year are consumed by every person in the United States. Chickens are smarter than you think, they can distinguish 100 faces, perform basic arithmetic, lay an egg every 26 hours, make over 100 sounds, and can run the length of a football field without a head. Over 10% of the population have backyard chickens. Join us and find out how you can go from paying $6 per dozen for eggs to raising backyard chickens and producing eggs that cost $6 each. But it will be educational, and you will have a lot of fun.

Instructor: Gerald Geise

Gerald Geise is a Chemical Engineering graduate of Montana State University. He spent over 25 years in key management positions in the nuclear industry and lectures frequently on nuclear power issues. He has a lifelong hobby of making candles and has also given numerous presentations on the history of candles. Backyard chickens have also been in his life for over 20 years and he is now tackling giving a fascinating talk on cluckers (chickens).

Thursdays

**Inside the National Park Service: Stories and Histories From a Former Ranger**

**Subject Area:** Arizona History/Culture

**Thursdays:** 6 Sessions 9:00 AM - 10:45 AM

**Start:** Thu 1/25/24  **End:** Thu 2/29/24

**Location:** Ocotillo Room  **Class Size:** 65

**Course Description**

Each session will cover a different topic.

**Session 1: Search and Rescue in Yosemite National Park**

In 2022, nearly 4 million visitors came to Yosemite, the great majority of them returned home, safe and sound. But not all of them! In the last fifty years, there have been some 8500 search and rescue missions in the park. YOSAR "Yosemite Search and Rescue" is one of the elite rural and mountain rescue teams in the world. Using many outstanding and rare photos, Butch Farabee, a ranger in Yosemite for almost ten years, will graphically (well, not too graphically) show you many of these incidents. Butch has written five books on this subject, one winning the National Outdoor Book Award.

**Session 2: Plane With 3 Tons of Marijuana, Into a Remote Lake in Yosemite**

A plane full of drugs disappeared into a lake in an isolated part of the park in December 1976. Not discovered for six weeks, three tons of marijuana and two pilots were under the ice for over six months. Over the years, this plane wreck and the subsequent recovery of the dope, has taken on near-legendary repute in Sierra Nevada lore. Certainly tragic, much of the tale is also humorous.
Several books and at least one movie were based on this incident. Butch Farabee was there, at the very beginning, diving on the plane wreck under the ice, as well as then recovering the two pilots, six months later.

Session 3: National Park Service 101
Most of you love our national parks, but do you know much about how both the National Park Service and National Park System (there is a difference) work? How is each organized and what makes them different? There are over 22 different kinds of national park areas. How is the agency organized geographically and how these areas come to be? How they are staffed, managed, and to what levels and with what amounts of funding? With 35 years of National Park Service experience and management, Butch Farabee will expose you to the basic inner workings of our national parks and the agency that manages them.

Session 4: Death in Yosemite National Park - Why Research This Subject?
Since 1855, nearly 1900 people have died in Yosemite and Butch Farabee has chronicled them, including writing a book about these. The park averages between 15 to 20 deaths per year, with 38 meeting their end in 1978 alone. From going over waterfalls, murder, planes wrecks, climbing, hiking, horse and buggy crashes, rocks and trees falling, suicides, drownings, lightning, and even a six-year-old being gored by a deer. Yosemite and Yellowstone have rangers who serve as Deputy Coroners and Butch was one of them for over seven years. He will explain why it is important to document these tragedies and what we can learn from them.

Session 5: National Park Service Dive Program
There are 85 million acres included within our national parks, 11 million of those acres are underwater. There are 80 national park units that include ocean and large lakes and at least 70 of these areas have some history of diving, including, of all places, Hubbell Trading Post on the Navajo Reservation. Beginning in at least 1934, parks have used divers to learn about the resources they protect and, in 2019, the agency had 218 certified divers, making 7100 dives. They perform body recoveries, biological research and underwater archaeology, including of the USS Arizona Memorial in Hawaii. Butch Farabee, with over six decades of dive experience, 900 dives, and once overseeing the Service's national dive program, will discuss this largely unknown function of the Service. Butch has written a book on this subject. And there will be lots of pretty photos.

Session 6: El Camino del Diablo - The Devil's Highway
On the National Register of Historic Places, El Camino del Diablo, is a brutal, 200-mile long, prehistoric and historic route from northern Sonora to Yuma, Arizona, then on to the mission areas of California. Used for at least a millennium by Native Americans, conquistadores, Father Kino, miners, undocumented aliens, and modern-day adventurers, El Camino crosses three large federal areas in the extreme desert of southern Arizona, which is the focus of this presentation. A reputed 400 to 2,000 lives have been lost traveling along our very own, isolated and wild part of the Arizona-Mexico border, most from heat, exposure, and a desperate lack of water. Join Butch Farabee, who has driven this remote, four-wheel drive road six times, for a part history, part travelogue, and part informational overview of this fascinating but humbling area.

Instructor: Charles "Butch" Farabee
Butch Farabee is retired from the National Park Service after 35 years as a ranger and superintendent in 11 national park areas, including Grand Canyon, Yosemite, Sequoia, Kings Canyon, Glacier, Death Valley, Lake Mead and Glen Canyon. He is a Tucson High School graduate and holds a BS in Zoology from the University of Arizona and an
Writing for Self Discovery

Subject Area: Literature/Writing/Language

Thursdays: 6 Sessions 9:00 AM - 10:45 AM
Start: Thu 1/25/24 End: Thu 2/29/24
Location: Palo Verde Room Class Size: 10

Course Description
In this study group we will write short essays (900 word max), on topics such as (1) something that stands out in your childhood, (2) a dramatic event that happened in your life, (3) something you are dealing with now or have dealt with recently, (4) an important decision that influenced, or perhaps even changed, your life. We will discuss each essay and provide feedback about how it is written. What typically happens in this class is that as people share their experiences and talk about their writing, they gain a deep appreciation for each other. Register only if you are committed to attending every session of the class, writing weekly essays and are open to receiving constructive feedback about your writing. You will also need to be able to email your essays to the other students in the class.

Expedition Cruising in the Polar Regions

Subject Area: Travel/Entertainment

Thursdays: Single session 9:00 AM - 10:45 AM
Start: Thu 1/25/24 End: Thu 1/25/24
Location: Saguaro Room Class Size: 55

Course Description
Since 2001, we have taken five trips varying in length from ten to 35 days to the polar regions on expedition cruise ships. Find out how expedition cruising differs from other types of cruising, how to prepare, what to pack, and what makes up a "typical" cruising day. Hear about our last trip with two experiences new to everyone on the ship (passengers and crew) and why this was really a trip of a lifetime. And, what about that polar plunge?

Most of the session will be sharing my experiences with photos and videos, many from professional photographers. Find out what I learned about my Tucson photography from a National Geographic photographer on the expedition team who lives here.

Instructor: Carol Hubbard

Carol loves travel and the experiences of foreign lands and people. She especially loves sharing her adventures with others and encouraging them to try something new.
Great Decisions 2024

**Subject Area:** History/Current Events

**Location:** Ocotillo Room  
**Class Size:** 30  
**Additional Costs:** Independent purchase of the Great Decisions Briefing Book is highly recommended.

**Course Description**

Great Decisions is America's largest discussion program on world affairs and foreign policy. The preliminary topics for 2024 will include:

1. Mideast realignment  
2. Pandemic preparation  
3. NATO's future  
4. Climate technology and competition  
5. Understanding Indonesia  
6. US and China investment strategies  
7. Science across borders (cooperation and regulation)  
8. High seas treaty  

This class will be interactive with guest speakers with expertise in these topics. If any OLLI members have experience working on any of the topics, please reach out to me to discuss.

The Foreign Policy Association publishes a Great Decisions Briefing Book and DVD each year. Independent purchase of the briefing book is highly recommended. It can be ordered online from the Tucson Great Decision's Association (TGDA.org) for $28-$30. An electronic version will be available from Amazon and other e-book retailers in 2024.

**Instructor:** Diane-Marie Landsinger

Diane-Marie Landsinger is a cross-cultural trainer who has worked on International Joint Ventures and international relocations for the last 25 years. She has facilitated Great Decisions and is interested in how historical information guides current political decisions.

Science News and Views

**Subject Area:** Science/Math/Technology

**Thursdays:** 6 Sessions 11:00 AM - 12:45 PM  
**Start:** Thu 1/25/24  **End:** Thu 2/29/24  
**Location:** Saguaro Room  
**Class Size:** 55

**Course Description**

Science News and Views is an interactive class discussion concerning the latest scientific discoveries that you would like to discuss. This is a chance to share what you have learned with others regarding the sciences, to learn, and have fun.

**Instructor(s):** Holly Jebb

Holly R Jebb was born and raised in the Los Angeles area. While in college she studied music, psychology, and other sciences, as well as performing in both original and cover bands. In 1980, she went to work in the Motion Picture Industry. After 21 years at the studios, she went to work for a solo corporate/real estate lawyer for another 13 years. Upon retiring and moving to Tucson in June 2017, she enrolled in OLLI, studying poetry with Dan Gilmore and other science-oriented classes at OLLI, all the while getting back to performing, writing and recording her original songs.

Your Amazing Mind

**Subject Area:** Social Sciences

**Thursdays:** 8 Sessions 11:00 AM - 12:45 PM  
**Start:** Thu 1/25/24  **End:** Thu 3/14/24  
**Location:** Palo Verde Room  
**Class Size:** 35

**Course Description**

The mind is truly amazing. It is responsible for everything you do and are, and often accomplishes its feats in mysterious ways. We will grapple with questions such as: What is consciousness? Can you know what someone else is experiencing? How do...
unconscious processes create and control your behavior and experience? What happens when you don't pay attention? What does it mean to say that the brain is a prediction machine? How do we remember? Why do we sometimes fail to remember or remember inaccurately? How is sleep involved in forming memories? What is behind problems like post-traumatic stress disorder and inaccurate eyewitness testimony? How is the mind involved in our social relationships? How have advances in artificial intelligence created robots who can interact socially with humans? How can we minimize the decline of mental functioning as we age? In dealing with all these questions our goal will be to relate scientific findings to everyday experience. This class is based on previous versions of Your Amazing Mind, updated with new research and ideas.

**Two Novels About Mexico by DH Lawrence and Graham Greene**

**Subject Area:** Literature/Writing/Language  
**Thursdays:** 12 Sessions 1:00 PM - 2:45 PM  
**Start:** Thu 1/25/24 **End:** Thu 4/11/24  
**Location:** Ocotillo Room **Class Size:** 65

**Course Description**  
D. H. Lawrence's novel The Plumed Serpent has generated praise and criticism since it was written in 1926. The plot is about Kate Leslie, an Irish tourist visiting Mexico after the 1910 revolution. She meets Don Cipriano, a Mexican general supporting a religious movement, Men of Quetzacoatl founded by Don Ramón Carrasco. Cipriano wants to be Huitzilojochtli, an Aztec god, and Carrasco Quetzacoatl another Aztec god, to bring about an end to Christianity's influence in Mexico replacing it with pagan worship of the Aztec gods. Kate is to marry Cipriano and become his helpmate in ruling Mexico. Octavio Paz praised the novel and Carlos Fuentes stated it is one of the best novels about Mexico along with The Power and the Glory by Graham Greene. Greene's novel is about Mexico in the late 1930's when a paramilitary group has outlawed the Catholic Church and is executing its clergy. A nameless Catholic "whiskey priest" is pulled between his addiction to alcohol and calling to in performing his duties as a priest in this dramatic contest between faith and desire. Both books are readily available, used and new.

**Instructor:** Charles Peters  
Chuck is an experienced study group leader.

**Senior Scams: Fraud Awareness & Prevention**

**Subject Area:** DIY/Self-Help, Health/Wellness  
**Thursdays:** Single session 9:00 AM - 10:45 AM  
**Start:** Thu 2/1/24 **End:** Thu 2/1/24  
**Location:** Saguaro Room **Class Size:** 55

**Course Description**  
Brian will share experiences, stories, and high-profile investigations from his 28 years in Federal law enforcement. He has seen how scammers have become far more sophisticated and ruthless in their attempt to steal from their victims. We will discuss how all scams follow the same basic pattern and learn techniques and tools to protect your personal information and your hard-earned money.

**Instructor:** Brian Watson  
Brian Watson spent 28 years in Federal Law Enforcement investigating financial crimes as a Special Agent with IRS Criminal Investigation. He spent much of that time as a Public Information Officer warning the public about financial related scams. He is now a Community Outreach Specialist for R. O. S. E. Resources/Outreach to Safeguard the Elderly, a non-profit that educates older adults and their families on how to avoid financial scams. Brian's role with R. O. S. E. is to do media, networking, and public speaking events.

**Spiritual Ecology**

**Subject Area:** Philosophy/Spirituality/Religion  
**Thursdays:** 4 Sessions 9:00 AM - 10:45 AM  
**Start:** Thu 2/8/24 **End:** Thu 2/29/24  
**Location:** Saguaro Room **Class Size:** 55

**Course Description**  
The ecological crisis is a spiritual crisis. So said Pope Francis in his Encyclical, "Laudato Si': On Care for
our Common Home." The Scientific Revolution of the 16th century turned our common home into an object to mine for material benefit. The damage done is now brutally obvious. And just as obvious is the damage we've done to ourselves.

This class will survey spiritual responses to the ecological crisis found in three great wisdom traditions: Christian, Buddhist, and Indigenous American. The focus will be on ideas and practices that nourish personal and collective awakening.

Instructor(s): Merrill Collett
Merrill Collett is a docent at the Arizona-Sonora Desert Museum. He is a retired print journalist lay-ordained in the Zen Buddhist tradition and a graduate of Stanford and Johns Hopkins universities.

Energy Technologies for a Changing World

Subject Area: Science/Math/Technology

Thursdays: 5 Sessions 9:00 AM - 10:45 AM
Start: Thu 3/7/24 End: Thu 4/4/24
Location: Saguaro Room Class Size: 55

Course Description
This course covers current, emerging, and longer-term energy technologies. We will make careful distinctions between reality today, hype, facts, and hope for tomorrow, common misconceptions and key controversial issues. Energy technologies drive most important global issues including climate change, economics, security, governance, demographics, and health, both for today and in the future. We will survey the technologies currently used and their outlook, promising new technologies, and longer-term opportunities.

Instructor: Lockwood Carlson
Lockwood received his PhD in theoretical cosmology after graduate studies at Princeton University and the University of Wyoming. His research was on electromagnetic radiation in curved spacetimes. He was a Corporate Scientist at 3M Company and has taught courses in physics and technology at the University of Minnesota and OLLI programs there and at the University of Arizona.

Presidential History: The Good, Bad, and Ugly (Part I)

Subject Area: History/Current Events

Thursdays: 5 Sessions 9:00 AM - 10:45 AM
Start: Thu 3/7/24 End: Thu 4/4/24

Course Description
Participants will explore and gain insight into American history through the lives and legacies of several US Presidents. In Part I, we will focus on FDR and Truman, the Adams family, JK Polk, Andrew Johnson, McKinley, and Theodore Roosevelt. The goal will be to better understand the accomplishments, decisions, and quirks of these gifted (and sometimes troubled), men (so far). Part II, will examine additional Presidencies, and will be taught next year.

Instructor(s): Ron Rude
Ron Rude lives in Tucson, and has been a student of presidential history for 30+ years. He has taught several OLLI history courses including "The Life and Politics of Thomas Jefferson," and "Presidential Endings: How Our Chief Executives Left Us," along with several courses on "Science and Theology." Ron recently retired to writing and teaching after 17 years as Lutheran campus pastor (ELCA) at the U of A. Interests include hiking, music, basketball, travel. His most recent published book is "Amending the Christian Story: The Natural Sciences as a Window into Grounded Faith and Sustainable Living" (Wipf and Stock Publishers, October 2021).
**Home Energizer Workshop, by TEP**

**Subject Area:** Civic Engagement/Community/Government, DIY/Self-Help, Science/Math/Technology

**Thursdays:** Single session 9:00 AM - 10:45 AM  
**Start:** Thu 3/7/24  **End:** Thu 3/7/24  
**Location:** Palo Verde Room  
**Class Size:** 35

**Course Description**

The Home Energizer Workshop is a 60-minute program designed to teach an adult audience simple ways to be energy efficient at home. Each participant receives an Energy Efficiency Kit - containing 4-LED bulbs, a low flow shower head, a faucet aerator, a kitchen aerator, an LED nightlight, and more! Participants are taught how to use and install the items in the kit and learn about other easy ways to save energy (and money) at home. The Home Energizer Workshop is sponsored by Tucson Electric Power and is offered free of charge within TEP service areas.

Instructors: Adam Kingery, Scott Larson, Oscar Balloveras

Adam Kingery was a classroom teacher in Arizona for 13 years before joining the Exchange as an outreach presenter in 2016. For many of those years, Adam's students benefited from the programs offered by the Exchange. Adam holds a Master's Degree in Educational Leadership and has an undergraduate degree in Political Science from the University of Arizona, as well as a teaching certificate from Prescott College. He manages the logistics and team of energy presenters for the Bright Students middle school program and the Home Energizer Workshop for both Tucson Electric Power and Unisource Energy Services. Adam also assists with curriculum revisions and new program development.

Scott Larson is a recently retired full-time Urban Studies lecturer at Queens College of the City University of New York. Scott has been conducting environmentally based education programs in Tucson for almost 2 years. He has immersed himself in the social, cultural and natural landscapes of the Sonoran Desert, and looks forward to sharing the environmental awareness and passion for teaching that will make this workshop informative and beneficial for his new community!

**Aging With Buddhist Wisdom**

**Subject Area:** Philosophy/Spirituality/Religion

**Thursdays:** 4 Sessions 11:00 AM - 12:45 PM  
**Start:** Thu 3/7/24  **End:** Thu 3/28/24  
**Location:** Saguaro Room

**Course Description**

Everyone gets old and dies, ready or not! This upsetting discovery as a young man put the Buddha on his spiritual path. The teachings he developed offer a wise and more joyful way to meet the many challenges of old age. Through lectures, discussion, and audiovisual aids, this nonsectarian class will focus on the Buddha's core insights. The emphasis will be on finding and refining our deepest questions at this stage of life.

Instructor: Merrill Collett

Merrill Collett is lay ordained in the Zen Buddhist tradition. He was a long-term resident at San Francisco Zen Center and its Tassajara Zen Mountain Center for more than ten years and is the author of At Home with Dying, A Zen Hospice Approach, Shambhala, 1999.
Race Matters: Black Lives in the Supreme Court 1787-2023

Subject Area: Civic Engagement/Community/Government, History/Current Events, Social Sciences

Thursdays: 3 Sessions 3:00 PM - 4:45 PM
Start: Thu 3/7/24 End: Thu 3/21/24
Location: Ocotillo Room Class Size: 65

Course Description
Interested in learning about the U.S. Supreme Court’s evolving jurisprudence on slavery and civil rights from the founding to the present day? University of Cincinnati political science professor emeritus Howard Tolley will introduce the Articles and Amendments of the Constitution and federal laws addressing slavery, equal protection, and race discrimination applied by the Justices in deciding disputes impacting African Americans. The court’s rulings on disparate criminal penalties, slaveowners’ property rights, voter suppression, gerrymandered election districts, Jim Crow “separate but equal” treatment, states’ rights, school segregation, the death penalty, affirmative action, lethal use of force by police, and prosecutorial immunity provide a critical perspective on the legal system’s evolving approach to resolving disputes over black lives.

Instructor: Howard Tolley
Prior to retirement in 2011, Howard Tolley served as a Professor of Political Science and Adjunct Professor of Law at the University of Cincinnati where for 27 years he taught undergraduate and graduate public law courses on the U.S. legal system, Supreme Court, civil liberties, and international human rights. As a professional neutral, he also served as a labor law fact finder and arbitrator. He offers Supreme Court classes for OLLI in Ohio, Florida, Oklahoma, and Arizona where he spends the winter.

Wisdom Keepers, Wisdom Givers

**Subject Area:** Philosophy/Spirituality/Religion, Social Sciences

**Thursdays:** 3 Sessions 11:00 AM - 12:45 PM  
**Start:** Thu 3/21/24  **End:** Thu 4/4/24

**Location:** Ocotillo Room  **Class Size:** 50

**Course Description**
As we age, we accumulate experience that in turn develops into wisdom. In certain cultures, it is thought that the "elders" are the keepers of wisdom, and in order to cultivate the wellbeing of future generations, it is important to share that wisdom. Our current Westernized culture has segregated generations, so that outside of familial relationships, there is little opportunity to share life lessons and wisdom in a meaningful, intergenerational context. Join us in this 3-session class as we learn about, explore, and discuss different aspects of wisdom, the development of wisdom and share life lessons and wisdom with young people through letter writing, and social media.

**Instructor:** Trish Chilton

Trish Chilton is a graduate student in the Psychology Department at the University of Arizona. She has a background in Gerontology, and specifically is part of the Social Psychology track with a minor in Neuropsychology. Trish's research interests include aging and wellbeing, wisdom, and intergenerational relationships. She is originally from North Carolina, and is the mother of four children ages 16-28.

A Current Look at Stonehenge and Other English Henges

**Subject Area:** Arts/Culture, History/Current Events

**Thursdays:** 2 Sessions 11:00 AM - 12:45 PM  
**Start:** Thu 4/4/24  **End:** Thu 4/11/24

**Location:** Saguaro Room  **Class Size:** 55

**Course Description**
We will look at the history with emphasis on current scholarship regarding Stonehenge and other henges in England. New technology is allowing new insight into the building of the various henges. Of course, speculation continues about their purpose.

**Instructor:** Squirrel Lovelady

Squirrel has enjoyed many classes through OLLI since moving to Tucson in 2017. She enjoys volunteering and has a wide range of interests, including history.

The Camino de Santiago – A Life Changing Experience

**Subject Area:** Health/Wellness, History/Current Events, Travel/Entertainment

**Thursdays:** 2 Sessions 1:00 PM - 2:45 PM  
**Start:** Thu 4/4/24  **End:** Thu 4/11/24

**Location:** Saguaro Room  **Class Size:** 55

**Course Description**
The Camino de Santiago is a 500-mile pilgrimage across Northern Spain that has been in existence for nearly 2,000 years. Annually, over 250,000 people from all over the world take on this 5-6 week-long experience. The Camino is a physical, emotional, and spiritual adventure, and for many, a life-changing one.

Study Group Leader Bob Logan has walked the Camino three times and during his talks, he...
discusses the life lessons learned that can immediately be applied to everyone's own life, including the power of being uncomfortable overcoming challenges dealing with daily doses of adversity understanding the importance of living a simpler life how gratitude and appreciation should play a bigger role in our lives Class #1 will discuss the history and the powerful aspects of walking the Camino. Class #2 will go into detail on Camino decisions one must make before leaving for Spain. Things like backpacks, hiking poles, shoes, blisters, where to sleep, when to go, etc.

Bob's Camino talk provides a humbling look at how many of us are living our lives currently, and sets aside the trappings of materialism, corporate advancement, and being constantly "connected". Bob Logan's Camino book is "Let Your Path Find You" (www.letyourpathfindyou.com). Purchase of the book is optional for the class, not required.

Instructor: Bob Logan
Bob Logan is a speaker and published author, and he has lived an incredibly varied life, from coaching to fundraising to university administration. After a 30+ year career at the University of Arizona, Bob decided to embark on the Camino de Santiago after seeing the movie "The Way". It so moved him that he has now walked the Camino on three occasions. This experience caused him to transform his life to help others find perspective and to live a more fulfilling life.

Fridays

OLLI Audio/Visual Training for Everyone

Start: Fri 1/19/24 End: Fri 1/19/24
Location: Ocotillo Room Class Size: 65

Course Description
This single session class will provide an understanding of the use of the OLLI classroom A/V equipment. It will cover how to properly use the OLLI computer, the microphones, video projector and DVD for a class.

If you've ever wanted to lead a class yourself but are unsure of the A/V system or you'd like to be able to help a Study Group Leader when there's a problem, please attend.

Instructor: John Lowy
John has been a member of OLLI for 10 years and serves as the coordinator for the volunteer Audio Visual team at the Central Tucson Campus.

How To Deal With Difficult People

Subject Area: Social Sciences
Fridays: 2 Sessions 9:00 AM - 10:45 AM Start: Fri 1/26/24 End: Fri 2/2/24
Location: Ocotillo Room Class Size: 30

Course Description
Dealing with others can be the source of great satisfaction and good health or the cause of misery and despair. We cannot change others and how they act but we can modify how we interact with others to optimize our social interactions or to minimize
the causes of friction and dysfunction. In this session we will explore how social interactions are constructed based on social styles we all possess, develop, and use in our daily family and work life. When others become a source of difficult and destructive relations, an option is to sharpen our social style in order to minimize conflict and avoid falling into traps presented by difficult people. We will lay the foundation for understanding our own and others social styles, and to try and "bring out the best in people when they behave badly".

Instructor: José Santiago

José Santiago MD was a professor at the University of Arizona Medical School and has been a consultant to large healthcare organizations.

Astronomy/Geosciences

Subject Area: Science/Math/Technology

Fridays: 6 Sessions 1:00 PM - 2:45 PM  Start: Fri 1/26/24  End: Fri 3/8/24 - No Class February 9

Location: Ocotillo Room Class Size: 65

Course Description

Our exploration of the Earth, Solar System, and Universe continues. This semester our key topic will be the Cosmological Toolkit. This Toolkit will include such concepts/theories/laws/insights as the Eddington and Roche limits, Redshift, Cosmic Distances, Kepler Laws, the Hertzsprung-Russell diagram, Stellar Magnitudes, Lagrange Points, and the EM spectrum, to name a few. We will discuss these in the context of on-going discoveries in Astronomy, Planetary Sciences, and Earth Sciences. Information will be conveyed using short videos, awesome photos, understandable/fun graphics, and class discussions. We will have several guest speakers from the University of Arizona’s Astronomy, Planetary Sciences, and Geosciences Departments. Science Fiction Theatre continues, with short clips highlighting a century of Sci Fi movies and TV shows. Please join us for this continuing journey of discovery and adventure. Being in an earlier Astronomy/Geosciences class I have hosted is neither a prerequisite nor necessary to understand and enjoy this class.

Instructor: Guy Jette

Guy retired from the U. S. Air Force after 37 years working in Research and Development in both the aeronautical and space fields. He holds MBA and MS degrees, and is an Associate Fellow of the American Institute of Aeronautics and Astronautics. He has also been a frequent guest speaker at the University of Hawaii Institute for Astronomy on Maui.

Desert Animal "Homes"

Subject Area: Science/Math/Technology

Fridays: 4 Sessions 1:00 PM - 2:45 PM Start: Fri 1/26/24  End: Fri 2/16/24

Location: Saguaro Room Class Size: 55

Course Description

A myriad of animals live in the Sonoran Desert. All require a home, a refuge from the environmental elements, predation, and a safe place for their offspring. Many utilize the nook and crannies in their habitat for a home. Some build homes from natural environmental materials. Some build homes around their bodies. Others biologically produce their own building material. In this 4-part series with an optional tour through Tohono Chul, we will learn the natural history of desert animals and most importantly how to identify animals by their desert homes.

Instructor: Marion Cimmino

In professional life, Marion Cimmino was a NYCHS Biology teacher, coauthor of two text books, writer for Baron's Educational Series Review books, and
presenter of curriculum programs on the local and national level for the NYBTA (New York Biology Teachers Association). Marion retired to Tucson in 1993. For the past 18 years, Marion has been and still is a docent at the Arizona Sonora Desert Museum. In the Tucson community Marion has provided educational programs for OASIS, Sun City Continuing Ed, retirement and assisted living communities, and even dementia units. The main purpose of these programs is to foster a love for our unique Sonoran Desert through understanding the complexity of our natural environment and our uniquely adapted desert plants and animals.

Police Officer-Involved Custodial Deaths

Subject Area: History/Current Events
Mondays: 4 Sessions 11:00 AM - 12:45 PM
Start: Fri 2/2/24 End: Fri 2/23/24
Location: Saguaro Room Class Size: 25

Course Description
This 4-week course will be a review the facts and fiction within the public debate regarding police officer-involved fatal custodial deaths. My primary goal is to describe the process and the adjudicating factors involved in investigating custodial deaths. The class will include an explanation of the prevailing US Supreme Court rulings. It will conclude with an examination of the facts and fiction behind several of the more recent controversial shootings.
I will not be showing images nor videos of any incidents.
The class is designed to be informative and not a forum for debating related social issues.
Instructor: David Grabelski
Dave has 45 years of tactical and strategic intelligence experience in the law enforcement and intelligence communities at the local, federal, international, and university/college levels. In his first career, he served 21 years with the Los Angeles Police Department including assignments as a Senior Homicide Detective and Gang Unit Supervisor. His second career was as a Gangs/Drugs/Violence analyst/Instructor for the US Department of Justice / National Drug Intelligence Center. Skeptic's View of Climate Change

Subject Area: History/Current Events, Science/Math/Technology
Fridays: 8 Sessions 9:00 AM - 10:45 AM
Start: Fri 2/9/24 End: Fri 3/29/24
Location: Saguaro Room Class Size: 55

Course Description
Climate crisis hysteria is widespread and is driving political programs and decisions. We will use data to show that there is no crisis. Disasters such as landfalling hurricanes, tornadoes, droughts, floods, and forest fires are not increasing and deaths from disasters are down over 90%. Food production is increasing, hunger is down, the planet is greening, life expectancy has more than doubled since fossil fuel use has become widespread. The planet has warmed about 1 degree since the end of the Little Ice Age (1850). Is it natural? Has warming, such as we are experiencing today, ever happened before? Ocean influences such as El Nino / La Nina and the Indian Ocean Dipole create weather patterns that are often confused with climate change. What are ocean oscillations and how do they influence weather? "Green energy" is neither free nor
environmentally friendly. Some of the costs associated with wind, solar and batteries will be reviewed. Time will be allocated for discussion and opposing viewpoints.

Instructor(s): Bob Barry

Bob has had three careers. He was a traditional Navy line officer serving in Destroyers and riverboats. After receiving an M. S in Oceanography he served 16 years as an oceanography specialist, primarily involved in Anti Submarine Warfare (ASW). His third career was as a program manager for satellite systems at Ball Aerospace. He has been an OLLI study group leader for 7 years teaching about observing the ocean from space. His emphasis has been on ocean oscillations and their impact on weather and climate.

Wanderers in the Promised Land: Physicians in the Twentyfirst Century

Subject Area: Health/Wellness

Fridays: 3 Sessions 9:00 AM - 10:45 AM
Start: Fri 2/16/24 End: Fri 3/1/24
Location: Ocotillo Room Class Size: 30

Course Description

Medicine has brought many technical promises in the Twenty-first century, from precise diagnostic tools, effective pharmacological agents, highly complex interventions, to genetic manipulations, and astounding surgical interventions. These advances have had a great impact on the quality and longevity of our lives. What about doctors' quality of life? What impact has the evolution of American medicine had on practitioners? From technical advances to the corporatization of American medicine, what is the impact on physicians? And finally, what are the intended and unintended consequences on patients, their families, and society in general, meaning all of us? We will explore these issues and try to make sense of what we are experiencing in our immediate environment as we seek safe, quality, and empathic medical care. Discussions and personal anecdotes will be more than welcomed to anchor trends and studies to our personal realities.

Instructor: José Santiago

José Santiago MD was a professor at the University of Arizona Medical School and has been a consultant to large healthcare organizations.

Enchanting the World: How Michael Jackson Became a King

Subject Area: Arts/Culture, Literature/Writing/Language
Fridays: 4 Sessions 11:00 AM - 12:45 PM Start: Fri 2/16/24 End: Fri 3/8/24
Location: Ocotillo Room Class Size: 20

Course Description
Michael Jackson was singularly one of the greatest entertainers of the 20th century. He wanted to enchant the world and on the day he died, will. i. am, leader of the Black-eyed Peas, declared "I wouldn't be surprised if the world stopped spinning tomorrow." What was it about Michael Jackson that would account for such a stunned reaction? How did millions of people around the world become so enthralled? Was it his phenomenal talent in song and dance? Was it his prodigious creativity and virtuosity? With the use of recorded audio and visual content, we will trace the arc of Jackson's ascent. We will hear recorded accounts from the friends, family, and fans who knew him best. We will gain an appreciation for his immense productivity and for his humanitarian efforts, and explore the lows that drove him to a tragic end.

From a Fiery Beginning to a Fiery End: Plate Tectonics

Subject Area: Science/Math/Technology

Wednesdays: 5 Sessions 11:00 AM - 12:30 PM
Start: Wed 2/7/24 End: Wed 3/6/24
Location: Community Learning Center - Room 203 Class Size: 60

Course Description
Science changes as we add new information. Occasionally the changes result in a whole new way of understanding the science. Newton's proposed "Laws of Gravity", Darwin's "Origin of the Species" "and Einstein's "Special Theory of Relativity" and "Relativity" all changed the understanding of their fields. In the mid 1960's acceptance of Plate Tectonics did the same thing for the Earth Sciences. This acceptance has finally allowed us to propose a model (or two or more) for the history of the earth from its very beginning to its end.

The processes that occur during this history can be divided into two groups: Forces of construction and forces of destruction. A look at these forces allows us to propose theories to explain the origin of continents, granites, earthquakes, volcanos, etc.

Instructor: Ed McCullough
Edgar was born in Charleston, West Virginia. He earned a BA and MS from West Virginia University. Edgar earned his PhD from the University of Arizona, where he was a faculty member from 1957 to 1997: Instructor to Professor, Department of Geosciences, 1957-1997; Department Head, Department of Geosciences, 1970-1982; and Dean, Faculty of Sciences, 1983-1995.

Learn How To Excel at Public Speaking and Performing

Subject Area: Arts/Culture, DIY/Self-Help

Wednesdays: 5 Sessions 1:00 PM - 2:30 PM
Start: Wed 2/7/24 End: Wed 3/6/24
Location: Community Learning Center - Room 210 Class Size: 20

Course Description
Even if we have no problem talking with friends, that often changes when we get before a group of people. We turn timid, are barely audible, and speak too quickly as if we want to get it over with as soon as possible. Learn how to be successful - singing or speaking - before groups of any size - from 6 to 600. Even more, see how enjoyable the experience can be when you feel in control and are not overcome by nervousness and fear.

You will learn:
How to PLAN for public speaking or performing
How to PREPARE your material
How to PREVENT fear by focusing on your intention - not on your nerves
How to ENJOY public speaking or performing so that the audience enjoys it, too. You'll bring to class either a song, poem, speech, or monologue. You will get your turn to deliver it, listen to suggestions, and then try them out and see improvement not only in real time but from week to week. In a relaxed, small group (20 or less), you will learn to trust one another and lose your nervousness and fear in an open workshop where
everyone is willing to try-and-fail so they can get better and better. You will learn just as much from watching your fellow students as you do from your own efforts.

Instructor: Eileen Flaxman

As entertainer and actress Eileen Valentino, Eileen has appeared on stages from coast to coast. And now as an author and poet, she stands before crowds to talk about her books. Same rules apply: plan carefully and learn how to manage your nerves! Was Eileen always at ease before a crowd? Hardly. You will learn how she overcame her own fears of performing.

### The 2024 Election

Course Description
Each class member will build their own T-TRAK module, think diorama. In addition to hands-on instruction in completing your module, we will devote some time each class period to the history of railroads, the railroad hobby, and how we model railroads. At the end of the class, we will take our finished modules "on tour" with presentations at our local library and railroad museums. No experience is necessary, nor will any power tools be used. Photos/videos are available at: gvrrclub.org/t-trak. Materials fee is $50.

Instructor: Bob Schaffer
Bob Schaffer completed his PhD from Arizona State with doctoral areas in Marketing, Quantitative Methods, and Experimental Psychology. He taught at ASU, Whittier College, CSU, Fullerton, before switching over to Cal Poly, Pomona in 1983 where he remained until retirement in 2010. He had a somewhat normal academic career: wrote textbooks, published papers, delivered academic presentations, chaired three international conventions, was instrumental in the creation of two new academic programs (Music Business and E-Commerce), advised student clubs, won some teaching awards, and in general, just had a great time. In addition to the US and Canada, academic travel included Europe and Asia; he was lucky to teach one quarter in Africa. Consulting assignments included clients in the Manufacturing, Service, Health Care, Entertainment, and Financial sectors. Bob moved to Green Valley in 2011.

The Camino de Santiago – A Life Changing Experience

Subject Area: Health/Wellness, History/Current Events, Travel/Entertainment

Wednesdays: 2 Sessions 3:00 PM - 4:30 PM
Start: Wed 2/7/24 End: Wed 2/14/24

Location: Community Learning Center - Room 203
Class Size: 65

Course Description
The Camino de Santiago is a 500-mile pilgrimage across Northern Spain that has been in existence for nearly 2,000 years. Annually, over 250,000 people from all over the world take on this 5-6 week-long experience. The Camino is a physical, emotional, and spiritual adventure, and for many, a life-changing one.

Study Group Leader Bob Logan has walked the Camino three times and during his talks, he discusses the life lessons learned that can immediately be applied to everyone's own life, including,
the power of being uncomfortable overcoming challenges dealing with daily doses of adversity understanding the importance of living a simpler life how gratitude and appreciation should play a bigger role in our lives Class #1 will discuss the history and the powerful aspects of walking the Camino. Class #2 will go into detail on Camino decisions one must make before leaving for Spain. Things like backpacks, hiking poles, shoes, blisters, where to sleep, when to go, etc.

Bob's Camino talk provides a humbling look at how many of us are living our lives currently, and sets aside the trappings of materialism, corporate advancement, and being constantly "connected".

Bob Logan's Camino book is "Let Your Path Find You" (www.letyourpathfindyou.com). Purchase of the book is optional for the class, not required.

Instructor: Bob Logan

Bob Logan is a speaker and published author, and he has lived an incredibly varied life, from coaching to fundraising to university administration. After a 30+ year career at the University of Arizona, Bob decided to embark on the Camino de Santiago after seeing the movie "The Way". It so moved him that he has now walked the Camino on three occasions. This experience caused him to transform his life to help others find perspective and to live a more fulfilling life.

**Roots of Spanish California, 1530-1776**

**Subject Area:** History/Current Events

**Wednesdays:** Single session 1:00 PM - 2:30 PM  
**Start:** Wed 3/6/24  **End:** Wed 3/6/24

**Location:** Community Learning Center - Room 203  
**Class Size:** 50

**Course Description**
The mud had hardly dried on the boots of the first Spanish conquistadors, of the Aztec empire in Central Mexico of 1518, when explorations began along the Pacific rim of Baja and Alta California.

Over the following centuries Spanish naval explorations, first organized by Hernán Cortés himself, sailed and explored the coastal frontiers of California's peninsula and mainland looking for safe harbors, assessing the Native populations and possible mineral wealth, and possible settlement locations. The names Cabrillo, Vizcaino and Anza are forever associated with the ultimate colonization of California by the Spanish - thereby stamping its culture, religion, and language on the people and land for better or for worse.

This class traces the 246 years separating the first explorations of 1530 and the final settlement of San Francisco Bay by Anza and his 240 colonizers in 1776.

**Instructor:** John Attardi

John relocated to Green Valley upon retiring from a thirty-year career in business management. With a natural curiosity about his surroundings and their historical significances, John immediately began studies of southern Arizona's Spanish colonial past which led to joining the first graduating class of docents at Canoa Ranch. His essays on Spanish/Mexican land grant procedures and Spain's material assistance in America's War of Independence were published in Tumacacori National Historic Park newsletter and El Presidio Real Museum in Tucson. He's a member of the Tucson Corral of Westerners, Old Pueblo Archaeology Center, and Southwest Mission Research Center.
180 Days Around the World on a Cruise Ship – Take 2

**Subject Area:** Travel/Entertainment

**Wednesdays:** 2 Sessions 11:00 AM - 12:30 PM

**Start:** Wed 3/13/24 **End:** Wed 3/20/24

**Location:** Community Learning Center - Room 203 **Class Size:** 65

**Course Description**
What comes to mind when you hear about a six-month cruise around the world? Who takes a trip like this one and why? How do you prepare for leaving home? What do you pack? What is life like on board and off? How has the pandemic changed cruising (observations from the same ship with a similar itinerary three years later)? What happens if you get sick or must leave the ship due to an emergency? How are they handling COVID? Would you do it more than once?

In 2020, we boarded a ship for a 180-day cruise around the world. On March 13, 2020, everyone was notified that we had to disembark in two days in Rio de Janeiro after only 67 days on board. In 2023, we decided to try again. Comparing a similar itinerary on the same ship, how has COVID changed cruising? Find out about lessons learned - dos and don'ts.

Session 1 will address these questions with the remainder of class devoted to viewing photos from ports of call in the Americas. Session 2 will be devoted to ports from the rest of the cruise.

**Instructor:** Carol Hubbard

Carol loves travel and the experiences of foreign lands and people. She especially loves sharing her adventures with others and encouraging them to try something new.

**Election 2024**

**Subject Area:** History/Current Events

**Wednesdays:** 3 Sessions 1:00 PM - 2:30 PM

**Start:** Wed 3/13/24 **End:** Wed 3/27/24

**Location:** Community Learning Center - Room 203 **Class Size:** 65

**Course Description**
This class will examine the dynamics surrounding the upcoming 2024 election. Included will be a review of the presidential nomination process, which will be in full swing as the class is presented. We will also look at the key races in the House and Senate, which will determine which party will control each legislative chamber during the next administration. This is a continuation of the class I offered last spring, although attendance at last year’s class is certainly not a prerequisite for registering for this year’s class.

**Instructor:** Ron Michaelson

Ron Michaelson holds a doctorate in political science and has retired from teaching at the University of Illinois - Springfield. He served in Illinois State government for 33 years, including four years as Assistant to the Governor and 29 as Executive Director of the State Board of Elections. He is a winter resident of Green Valley (January through April).
Solar Storms and the Origins of Religion

**Subject Area:** Literature/Writing/Language, Philosophy/Spirituality/Religion, Science/Math/Technology

**Wednesdays:** 2 Sessions 1:00 PM - 2:30 PM
**Start:** Wed 3/13/24 **End:** Wed 3/20/24
**Location:** Community Learning Center - Room 210 **Class Size:** 20

**Course Description**
The sun is a variable star. With major flare cycles of about 12,000 years (calibrated from ice core samples) and intermediate major plasma storms of 6,000, 3,000 and 1,500 years, catastrophes depicted in ancient legends, myths and sacred texts can be attributed to devastating solar eruptions (CME's, SPE's and cosmic rays). Scientists like Dr. Anthony Peratt at the Los Alamos laboratory have produced convincing evidence that Paleolithic and neolithic petroglyphs and cave art depict witnessed displays of solar plasma bombardment. A minor but significant solar storm in modern times was the Carrington Event of 1859 which brought down telegraph systems worldwide and lit the skies with aurorae for days. In this class you will learn how the sun and Earth connect electromagnetically and about our present exposure to solar flare risks in a tech-dependent age.

**Instructor:** Donald Berk

Donald J Berk is a retired tech entrepreneur. Before starting his software products company, Fortress Technologies, he held CIO executive positions in NASDAQ computer and telecom firms, and served as VP of manufacturing for a division of Caterpillar. He holds an MFA from Bennington College and completed the University of Manchester/Jodrell Bank program in radio astronomy. He also holds a Commercial Pilot and FAA flight instructor rating. He is an Air Force Vietnam-era veteran.

Home Energizer Workshop, by TEP

**Subject Area:** Civic Engagement/Community/Government, DIY/Self-Help, Science/Math/Technology

**Wednesdays:** Single session 9:00 AM - 10:30 AM **Start:** Wed 3/27/24 **End:** Wed 3/27/24
**Location:** Community Learning Center - Room 203 **Class Size:** 50

**Course Description**
The Home Energizer Workshop is a 60-minute program designed to teach an adult audience simple ways to be energy efficient at home. Each participant receives an Energy Efficiency Kit containing 4-LED bulbs, a low flow shower head, a faucet aerator, a kitchen aerator, an LED nightlight, and more! Participants are taught how to use and install the items in the kit and learn about other easy ways to save energy (and money) at home. The Home Energizer Workshop is sponsored by Tucson Electric Power and is offered free of charge within TEP service areas.

**Instructors:** Adam Kingery, Scott Larson, Oscar Balloveras

Adam Kingery was a classroom teacher in Arizona for 13 years before joining the Exchange as an outreach presenter in 2016. For many of those years, Adam's students benefited from the programs offered by the Exchange. Adam holds a Master's Degree in Educational Leadership and has an undergraduate degree in Political Science from the University of Arizona, as well as a teaching certificate from Prescott College. He manages the logistics and team of energy presenters for the Bright Students middle school program and the Home Energizer Workshop for both Tucson Electric Power.

Scott has been conducting environmentally based education programs in Tucson for almost 2 years. He has immersed himself in the social, cultural and natural landscapes of the Sonoran Desert, and looks forward to sharing the environmental awareness and passion for teaching that will make this workshop informative and beneficial for his new community!

**Thursdays**

**Skeptic's View of Climate Change**

**Subject Area:** History/Current Events, Science/Math/Technology

**Thursdays:** 8 Sessions 9:00 AM - 10:30 AM  
**Start:** Thu 2/8/24  
**End:** Thu 3/28/24  
**Location:** Community Learning Center - Room 210  
**Class Size:** 30

**Course Description**  
Climate crisis hysteria is widespread and is driving political programs and decisions. We will use data to show that there is no crisis. Disasters such as landfalling hurricanes, tornadoes, droughts, floods, and forest fires are not increasing and deaths from disasters are down over 90%. Food production is increasing, hunger is down, the planet is greening, life expectancy has more than doubled since fossil fuel use has become widespread. The planet has warmed about 1 degree since the end of the Little Ice Age (1850). Is it natural? Has warming, such as we are experiencing today, ever happened before? Ocean influences such as El Nino / La Nina and the Indian Ocean Dipole create weather patterns that are often confused with climate change. What are ocean oscillations and how do they influence weather? "Green energy" is neither free nor environmentally friendly. Some of the costs associated with wind, solar and batteries will be reviewed. Time will be allocated for discussion and opposing viewpoints.

**Instructor(s):** Bob Barry

Bob has had three careers. He was a traditional Navy line officer serving in Destroyers and riverboats. After receiving an M. S in Oceanography he served 16 years as an oceanography specialist, primarily involved in Anti Submarine Warfare (ASW). His third career was as a program manager for satellite systems at Ball Aerospace. He has been an OLLI study group leader for 7 years teaching about observing the ocean from space. His emphasis has been on ocean oscillations and their impact on weather and climate.

**The Songs of the Historic 1964 Newport Folk Festival**

**Subject Area:** Arts/Culture, History/Current Events

**Thursdays:** 4 Sessions 9:00 AM - 10:30 AM  
**Start:** Thu 2/8/24  
**End:** Thu 2/29/24  
**Location:** Community Learning Center - Room 203  
**Class Size:** 65

**Course Description**  
In the last weekend in July 1964, a truly remarkable cast of musicians gathered in Rhode Island for the Newport Folk Festival. On opening night, the Thursday concert featured Elizabeth Cotten, Mississippi John Hurt, Muddy Waters, the Stanley Brothers and Doc Watson. On Friday, you would have gotten your first look at Bob Dylan, Joan Baez, Pete Seeger, Phil Ochs, Tom Paxton, and Johnny
Cash. The children's show on Saturday afternoon was hosted by Jean Ritchie and after sunset, Judy Collins, Peter, Paul and Mary and the Osborne Brothers shared center stage. The weekend closed-out with the Clancy Brothers, Bob Dylan, Odetta, the Stanley Brothers, and the Staple Singers.

Earlier that month, on July 2, the Civil Rights Act of 1964 had been signed. And just over a week after festival, on August 7, the U. S. Congress passed the Gulf of Tonkin Resolution and endorsed sending more American troops to Vietnam. It was quite a summer!

For this class of four sessions, we'll sample the setlists from each of the four days of the festival, learn about the life stories of many of the musicians, and reflect on what the songs they sang may tell us about a remarkable period in American history. We'll sing the songs together, just as the performers and their audience often did.

Instructor: Kevin Gosner

Kevin is Associate Professor of Latin American History at the University of Arizona, where he teaches classes on Colonial Spanish America, World History, and Historical Concepts and Methods. The author of Soldiers of the Virgin: The Moral Economy of a Colonial Maya Rebellion, his research examines the impact of the Spanish conquest and colonial rule on indigenous communities in southern Mexico and Guatemala. His interests also include music, popular culture, and natural history.

Dementia from the Inside

Subject Area: Health/Wellness

Thursdays: 8 Sessions 11:00 AM - 12:30 PM
Start: Thu 2/8/24 End: Thu 3/28/24
Location: Community Learning Center - Room 203 Class Size: 30

Course Description

As seniors, we all know someone (friend, or family) with some form of cognitive impairment. Understanding their behavior is key to maintaining relationships and vital to caregivers. This repeat class will use literature and films to help participants develop empathy and patience.

Instructor(s): Terry Cox

As a former teacher and labor relations consultant, Terry is taking her love of learning in new directions that enhance retirement.

Lighthouses, Lenses, The People Who Tended Them And Lens Projects

Subject Area: History/Current Events

Thursdays: 5 Sessions 11:00 AM - 12:30 PM
Start: Thu 2/8/24 End: Thu 3/7/24
Location: Community Learning Center - Room 210 Class Size: 30

Course Description

This course is designed to give the novice or veteran a working knowledge of lights and lighthouses. Classes will cover the world of lighthouses, their similarities and differences and useful definitions. One class is devoted to the development of lighthouse illumination, another will cover how the supporting machinery works. A class is devoted to the people who designed and operated the system of U. S. lights from Alexander Hamilton to the present-day Coast Guard and the final class will expose the student to the complexities of working on lighthouse lenses.

Instructor: James Woodward

Mr. Woodward has 55 years experience working with lighthouses and specifically Fresnel lighthouse lenses. Upon his retirement from 40 years of service to the U. S. Coast Guard he was cited as being "the greatest resource for lighthouse and
Fresnel lens preservation in the Coast Guard." He has presented at the University of Michigan, Rutgers University and many non-university venues and continues to work with lighthouses and lenses through his company "the Lighthouse Consultant." In August 2020 he was awarded the Francis Ross Holland Distinguished Service Award, the lighthouse preservation movement's highest lifetime honor by the American Lighthouse Council.

**Enchanting the World: How Michael Jackson Became a King**

**Subject Area:** Arts/Culture, Literature/Writing/Language

**Thursdays:** 2 Sessions 1:00 PM - 2:30 PM

**Start:** Thu 2/8/24 **End:** Thu 2/15/24

**Location:** Community Learning Center - Room 210  **Class Size:** 20

**Course Description**

Michael Jackson was singularly one of the greatest entertainers of the 20th century. He wanted to enchant the world and on the day he died, will.i.am, leader of the Black-eyed Peas, declared "I wouldn't be surprised if the world stopped spinning tomorrow." What was it about Michael Jackson that would account for such a stunned reaction? How did millions of people around the world become so enthralled? Was it his phenomenal talent in song and dance? Was it his prodigious creativity and virtuosity? With the use of recorded audio and visual content, we will trace the arc of Jackson's ascent. We will hear recorded accounts from the friends, family, and fans who knew him best. We will gain an appreciation for his immense productivity and for his humanitarian efforts, and explore the lows that drove him to a tragic end.

**Instructor:** Sherry L Bryant

Originally from Indiana, Sherry Bryant is a writer-poet and an arts-based researcher with the National Coalition of Independent Scholars. She is a member of the Arizona State Poetry Society and serves as a docent at the University of Arizona Poetry Center. **Mammals of the Santa Catalina Mountains**

**Subject Area:** Arizona History/Culture, Science/Math/Technology

**Thursdays:** 4 Sessions 1:00 PM - 2:30 PM

**Start:** Thu 2/8/24 **End:** Thu 2/29/24

**Location:** Community Learning Center - Room 203  **Class Size:** 50

**Course Description**

The Santa Catalina Mountains on the north side of Tucson contain a diverse array of animal life. Join naturalist and camera trap videographer David Dean for an up close and personal (and often humorous) look into the lives of the fascinating animals who call these mountains home. In addition to seeing videos of animals the following topics will be discussed: the biodiversity of southeastern Arizona, basic mammalian biology, mammalian adaptations to a desert environment, the role played by apex predators in the health of ecosystems, and a detailed look into the biology of mountain lions and black bears.

**Instructor:** David Dean

David retired and relocated to Tucson in the summer of 2015 after having served for 25 years on the faculty of the Department of Biology at Spring Hill College in Mobile, Alabama. He is very active in two volunteer groups, the Sabino Canyon Volunteer Naturalists and the Santa Catalina Volunteer Patrol.
which support the Santa Catalina Ranger District of Coronado National Forest. His hobby is capturing the wildlife of the Santa Catalina Mountains on video using motion-activated cameras.

**Examination of the Multiple Causes of the American Civil War**

**Subject Area:** Arizona History/Culture  
**Thursdays:** 6 Sessions 3:00 PM - 4:30 PM  
**Start:** Thu 2/8/24  
**End:** Thu 3/14/24  
**Location:** Community Learning Center - Room 203  
**Class Size:** 30

**Course Description**  
This course is designed as a discussion-based class to investigate and examine the various historical interpretations of the American Civil War. No event in American History has been as disruptive to the political, social, and economic system as the incidents from 1850 to 1860. Historians have debated the cause of this calamitous war for 150 years. Some claim the Great Civil War was a result of Northern Aggression, while others denounce it as purely Southern treason. Some say it was inevitable, while others regard it as a preventable mistake. Earlier historians argued that the conflict resulted from economic differences between North and South while more recent authors argue that the cause stemmed from opposition to Southern slavery. The great questions continue to be debated: Was war inevitable or preventable? This class will examine some of these arguments in a discussion-based approach, with an emphasis on their ramifications in the 20th and 21st century, specifically the 2nd Reconstruction era of the 1950s and 1960s and the most recent 1619 project and its 1620 critique.

**Instructor:** John Hosmer

Dr. John Hosmer received his Ph. D. from the U of Arizona with post-doctoral work at the University of Oxford in American Political Theory. He was the Arizona Governor's choice to serve on the Arizona State Board of Education and has been in the education field for over 35 years, teaching at both the college and secondary level. He served as the chair of the Charter School Subcommittee while on the State Board. Dr. Hosmer's papers and publications are centered on the field of American political and intellectual ideas stemming from the Civil War/Reconstruction era.

**Jezebel: A Reassessment**

**Subject Area:** History/Current Events, Literature/Writing/Language, Philosophy/Spirituality/Religion  
**Thursdays:** 3 Sessions 3:00 PM - 4:30 PM  
**Start:** Thu 2/8/24  
**End:** Thu 2/22/24  
**Location:** Community Learning Center - Room 210  
**Class Size:** 30

**Course Description**  
Jezebel is imagined to be the ultimate seductress, an enemy of all that is good, and thus presumed to be unredeemable. By supplementing Jezebel's story from the Bible with archaeological finds and both ancient and modern texts, we will re-consider who Jezebel was and whether her reputation should be redeemed.

**Instructor:** Abby Limmer

Abby Limmer has a PhD in Middle Eastern Archaeology, and is the Assistant Director for Outreach at the Center for Middle Eastern Studies. She has taught everyone from first graders through university students to senior citizens.

In this discussion group, we will reexamine the idea of retirement and how it has fundamentally changed during our lifetime. We will expand our concept of this potentially dynamic stage in our lives. Next, we will acquire and apply new strategies for sustaining a dynamic and meaningful lifestyle centered around a solid model for well-being and happiness. Engagement and meaningfulness are the keys to unlocking our potential as we age. This challenging and interactive experience is designed to launch us into the next stage in realizing our hopes for a fun, engaging, and fulfilling retirement. Materials will be provided. The materials fee is $5.00.

**Instructors:** Daniel Wegener, John Grahame

Dr. Daniel Wegener earned degrees in Anthropology and Education from the University of Nebraska Lincoln. He began his career as a bilingual educator in Guatemala, and later in Honduras and Nicaragua. He served as a representative of an NGO to the United Nations. He worked as a bilingual program director in the Phoenix area while completing his doctorate in Educational Administration at ASU. He was an assistant superintendent in Tucson and later moved to Green Valley. Subsequently, he worked as a teacher trainer and educational consultant. Throughout his career he advocated for human rights, equal access to education and social justice. If variety is the spice of life, John is a chili pepper. His many professions include electrician, builder, sailor, videographer, avian ecologist, campaign manager, teacher, coach, environmental activist, and storyteller. He is happiest in free fall (not working), but admits to always keeping a copy of "What Color Is Your Parachute" in his back pocket.

**Course Description**

June of 2021 marked the 50th anniversary of America's War on Drugs. During that period the Federal Government spent more than a trillion dollars to eradicate illicit drug abuse. More than one million people have died since 1999 from a drug overdose. In 2021, 106,699 drug overdose deaths occurred in the United States. The age-adjusted rate of overdose deaths increased by 14% from 2020 (28.3 per 100,000) to 2021 (32.4 per 100,000).

Clearly, we are not getting our money's worth.

Over the course of four weeks, we will discuss the issues related to the abuse of drugs in America, both illicit and legal.

**Week 1 - America's History of Addiction**  
**Week 2 - The Economics of Addiction**  
**Week 3 - Politics and Enforcement**  
**Week 4 - Recovery**

I will be including guest speakers with expertise in addition recovery, law enforcement and the economics of drugs and addiction as they are available.

Critical Role of the Gut Microbiome in Overall Health

Subject Area: Health/Wellness

Thursdays: 2 Sessions 11:00 AM - 12:30 PM
Start: Thu 3/14/24 End: Thu 3/21/24
Location: Community Learning Center - Room 210 Class Size: 30

Course Description
The gut microbiome, consisting of various types of bacteria and the chemicals they produce, plays a crucial role in shaping our bodily functions, including the expression of our genes. Recent years have witnessed an explosion of research revealing significant differences in the gut bacteria between healthy individuals and those diagnosed with chronic diseases. Whether it's an imbalance in specific bacterial populations or a lack of microbial diversity, these factors can contribute to health issues.

The main objective of this course is to increase awareness and present up-to-date research on the gut microbiome, emphasizing its functions and its significant influence on human health. Through a blend of presentations, discussions, case studies, and videos, participants will have the opportunity to delve into recent research discoveries, examine the complex connection between the gut microbiome and health conditions, and acquire knowledge about lifestyle adjustments that promote a varied microbiome. Ultimately, the goal is to establish a diverse microbiome as a proactive approach to preventing or reversing chronic diseases.

Mondays

Ukraine Then and Now (Part 2)

**Subject Area:** History/Current Events

**Mondays:** 12 Sessions 9:00 AM - 10:45 AM  
**Start:** Mon 1/22/24  
**End:** Mon 4/8/24  
**Location:** Online Zoom Offering 1  
**Class Size:** 300

**Course Description**  
The war in Ukraine will shape the course of the 21st century in many ways. Suddenly, the history of eastern Europe has taken on a new importance for an understanding of what is going on. That is a major thesis of Yale's distinguished historian, Timothy Snyder, in his course, The Making of Modern Ukraine, available to the public at https://online.yale.edu/courses/making-modern-ukraine. We use his lectures to introduce each of our classes in this two-semester course. In tandem with Professor Snyder's insights, we use a range of supplementary materials to foster an understanding of the region and its place in global affairs. Events as they unfold provide a continuing source of class discussion.

Eyes Remade for Wonder: A Spiritual Discussion on Rabbi Kushner's Writings

**Subject Area:** Philosophy/Spirituality/Religion  

**Mondays:** 10 Sessions 11:00 AM - 12:45 PM  
**Start:** Mon 1/22/24  
**End:** Mon 3/25/24  
**Location:** Online Zoom Offering 2  
**Class Size:** 20

**Course Description**  
This course explores a treasury of insights from one of the most creative spiritual thinkers in America. Whether you are new to the works of Rabbi Kushner or a devoted fan, this is the place to be. At once deeply human and profoundly spiritual, Lawrence Kushner's books are a treat for the soul. For nourishment and inspiration—Eyes Remade for Wonder opens wide the gates of Jewish mysticism and spirituality, helping us peel back the layers of meaning that animate our lives. As the author of nine volumes, he is a master of mystical theology, storytelling, and discovering the sacred in everyday life. Following an introduction and tribute by Thomas Moore, this paperback contains selections from Kushner's books, articles, and previously unpublished material. Kushner's blend of scholarship, imagination, psychology, mysticism and humor will make readers feel that he is speaking personally to them. It's not "just for Jewish folks."

Instructor: Adrienne O'Hare  
Adrienne O'Hare was born in Brooklyn. She has a master's degree in Group Dynamics and post graduate certificates in Women's Studies and Art Therapy. She is an Art Therapist and a Spiritual Director in private practice.

With a Little Help from My Friends: A Poetry Workshop

Subject Area: Literature/Writing/Language

Mondays: 12 Sessions 11:00 AM - 12:45 PM
Start: Mon 1/22/24  End: Mon 4/8/24
Location: Online Zoom Offering 1  Class Size: 16

Course Description
This is a twelve-week workshop in which participants will learn and practice the art of how to offer and receive constructive feedback of poems in progress. Our objective is to make our poems all that they can be before submitting them for publication, or for whatever reason you write poems.

Class requirement is a first draft of at least one complete poem and the willingness to offer and receive helpful criticism. Each week, participants will be emailed three poems from the list of submitted poems prior to the next class, and be prepared to offer suggestions on how the work might be improved. If time permits, participants may submit additional poems for critique. In addition, possible publishing options and suggestions for future reading will be discussed.

Class Size: Limited to 16
Instructor: Gene Twaronite
Gene Twaronite is the author of four poetry collections. His poems have appeared widely in literary journals and anthologies. His first poetry book Trash Picker on Mars, published by Kelsay Books, was the winner of the 2017 New Mexico-Arizona Book Award for Arizona poetry. His latest poetry collection is Shopping Cart Dreams. A former teacher, horticulturalist, and UA Instructional Specialist, Gene has an MA in Education, and has been writing and publishing in a variety of genres for over fifty years. He is an active member of Tucson Poetry Society. Follow more of Gene’s writing at his website: genetwaronitepoet.com.

News & Views with Sherry and Doug

Subject Area: History/Current Events

Mondays: 12 Sessions 1:00 PM - 2:45 PM
Start: Mon 1/22/24  End: Mon 4/8/24
Location: Online Zoom Offering 1  Class Size: 300

Course Description
Every week we pick and vote on topics to discuss. We like to discuss news from many different angles. So all civil opinions/views are welcome. News and Views Guidelines:

1 - We begin the class by soliciting topics from the students for possible discussion. Sometimes topics can be combined.

2 - A list of all of the topics is created in order of suggestion.

3 - A vote is taken for each suggested topic. Students can vote for as many topics as they wish to discuss.

4 - The voting results will be immediately shown.

5 - Topics are discussed by vote total (most to least) and in the event of a tie, either in order of suggestion or by SGL or group decision.

6 - The person who suggested a topic will be given 1-2 minutes to present their topic, either in advance of the vote if the topic is not clear, or when the topic is up for discussion.

7 - Important: We ask that everyone please keep your comments succinct - less than three minutes.
Don't ramble and please refrain from repeating yourself or others. We want everyone to be able to speak.

8 - Everyone will get a chance to speak before someone is called on again for a given topic.

Chess and the Art of War

Subject Area: Arts/Culture, History/Current Events

Mondays: 4 Sessions 11:00 AM - 12:45 PM
Start: Mon 2/5/24 End: Mon 2/26/24
Location: Online Zoom Offering 3 Class Size: 300

Course Description
Since about 600 AD, chess has been considered a game of bloodless warfare. These battles have been fought by countless number of chess players to grand masters, hustlers of street chess such as Humphrey Bogart and western movie actors including John Wayne. Even the character Death enjoyed a game of chess in the "Seventh Seal" movie. The designs of the chess pieces, the game boards, and the game itself are influenced by the evolution of warfare and the various countries or empires in which the game has been played. Chess sets have been made from many materials including clay, stone, wood, paper mâché, iron, silver, gold, amber, and ivory. The most intricately carved and rare sets may be found in museums or private collections and many of those are worth hundreds of thousands of dollars. This course will focus on the art exhibited by the game pieces.

Instructor: Mark Cocker

Mark Cocker is a scientist emeritus with the U.S. Geological Survey in Tucson. His interest in chess evolved from high school chess club play to collection and study of antique chess sets.

Curious Conversations, Inspired by Jazz at the Fox

Subject Area: Arizona History/Culture, Arts/Culture, History/Current Events, Travel/Entertainment
Tuesdays: Single session 1:00 PM - 2:00 PM
Start: Tue 1/16/24 End: Tue 1/16/24
Location: Online Zoom Offering 1
Class Size: 300

Course Description
The Curious Conversations Series provides an opportunity to take a deeper dive into the musical genres being presented on the Fox's legendary stage and, in the process, form a more personal relationship with these cultural forms. Conversations are facilitated by local experts in the given genre, who are perfectly positioned to not only deepen our understanding of the musical tradition being explored, but to also share some of the ways that it currently lives and breathes in our little corner of the Sonoran Desert. This Curious Conversation anticipates a number of upcoming jazz performances at the Fox, as part of the Tucson Jazz Festival.
Instructor: Jordan Wiley-Hill, Khris Dodge
Jordan Wiley-Hill is a professional storyteller, educator, and program developer. He manages the education and outreach activities for the historic Fox Tucson Theatre. A dynamic presenter, he draws heavily on his background in performance art and education, alongside a deep passion for the topics he shares.
Khris Dodge is a versatile musician and Tucson arts advocate for more than 30 years, currently serving as the Executive Director of the Tucson Jazz Festival. His rich and varied musical career has taken him from symphonic accompaniment, arrangement, and conducting to Broadway National Tours and
featured performances across the country. This background, combined with his long-time experience as a music educator—for both youth and adults, musicians and non-musicians—makes him a powerful bridge for those seeking to deepen their understanding and appreciation of jazz.

**Class Size:** 70

**Course Description**

Great Decisions is America's largest discussion program on world affairs. It is organized by the Foreign Policy Association (FPA). The mission of the Foreign Policy Association today, as it has been for over 100 years, is to serve as a catalyst for developing awareness, understanding, and informed opinion on U. S. foreign policy and global issues. Through its balanced, nonpartisan programs and publications, the FPA encourages citizens to participate in the foreign policy process. The FPA publishes a Great Decisions Briefing Book and DVD each year. Purchase of Briefing Book highly recommended. It can be ordered online from the Tucson Great Decision's Association (TGDA.org) for $28-$30. An electronic version may be available from Amazon in January of 2024.

The 2024 topics are:

1. Topic 1: Mideast realignment
2. Topic 2: Climate Technology and Competition
3. Topic 3: Science Across Borders
4. Topic 4: U. S.-China Trade Rivalry
5. Topic 5: NATO's Future
6. Topic 6: Understanding Indonesia
7. Topic 7: High Seas Treaty
8. Topic 8: Pandemic Preparedness

The format for each week involves:

1. Reading the designated chapter in the Great Decisions Briefing Book
2. A presentation by a participant that has studied the topic and provides additional pertinent information and/or watching a DVD for 30 minutes
3. Convening a Question-Answer-Discussion session

**Instructors:** Art Quinn, Sherry Goncharsky

Art Quinn has a Ph. D. in Plant Breeding and Genetics and worked thirty years for an international seed company based in Germany. He has traveled extensively in Europe and has witnessed the results of foreign policy decisions in numerous eastern European countries. Art is a Vietnam veteran. Art has been a discussion leader for OLLI Great Decisions for a number of years, and also organizes a Great Decision course in a Minnesota retirement community during May and June of each year.

Sherry Goncharsky worked at IBM as a programmer and systems engineer after studying computer science at the University of Illinois. As a retirement job, she spent time "teaching computers to behave for their owners.” Soon after joining OLLI, the pandemic hit and she became an active part of the tech hosting community and is also part of the AV Committee. **Class Size:** 300

**Course Description**

The documentaries shown in this class are diverse, thought-provoking, educational, and informational. I attempt to get documentaries with English subtitles. Please sign into class by 2:45 pm. Our classes run on Tuesdays from 3:00 pm until at least
5:00 pm. Some of the documentaries will last 2 hours plus time for some discussion. Generally, the classes will run longer to allow for discussion, but please feel free to sign off whenever necessary.

NOTE: Please do not expect a 4G, surround sound experience, rather it may have more of a "drive-in theater" feel to it. It is also helpful to shut down all programs besides Zoom on your computer, iPad or iPhone to help minimize any lag. Exact Documentary Listing TBD.

This class will be offered as a hybrid, both in-person and online. This is the online option.

Instructors: Mallory Riegger, Paul Waugaman, Susan Williams

As a UA graduate with a BS in Accounting, Mallory has worked in Accounting, Marketing and Management roles since 1985. She has been actively volunteering since 1997 in accounting, IT, training, and leadership roles including Scouting and OLLI-UA. She has been an SGL since 2018, on the AV Committee since 2018, Zoom Support & Tech Training (2020/21), tech host (ongoing), OLLI-UA recordings editor and manage the DVD library. She was the OLLI-UA Board Treasurer 2019 - 2023 and is currently the OLLI-UA Board VP.

Paul Waugaman has been an OLLI member since 2013. He retired from a career in research management in the Federal Government, academia, and consulting. History has been an interest throughout his life. He has concentrated on the Civil War and the evolution of the United States in the 19th Century. He has taught U. S. History part-time at the college level, and as a consultant, senior manager, and study leader, has planned and presented educational experiences in professional development for adults. He has teamed up with Mallory both as an SGL and Tech Host in prior semesters.

Five years ago, Susan joined OLLI as a student and quickly became a tech host, co-host, and a member of the OLLI board. She is knowledgeable, dependable and a lot of fun.

Democracy: Does It Have a Future?

Subject Area: Civic Engagement/Community/Government, History/Current Events

Tuesdays: 4 Sessions 9:00 AM - 10:45 AM
Start: Tue 2/6/24 End: Tue 2/27/24
Location: Online Zoom Offering 1 Class Size: 50

Course Description
When the U. S. Constitution was signed in 1787, there were only two other democracies in the world. Democracy only became a worldwide political system after World War II. Today, however, the number of democracies is rapidly declining, with many countries rapidly trending toward autocracy. The Covid-19 pandemic only hastened that trend. In the U. S. , political polarization is at an all-time high and public trust in national and local institutions is at an all-time low.

We will examine how democracy evolved, what it is as a political system, and the growing challenges faced by today's democratic governments. We will focus on the U. S. , including looking at the structural flaws in our Constitution and institutions. We will also explore the dynamics underlying different types of political systems, and how citizens influence change, particularly in the age of social media.

Instructor: Stephen Berardo

Stephen Berardo has been teaching at OLLI at the University of Rhode Island since 2018. He has a master's degree in public administration, and is a student of history and political systems. He has a long career as a planning consultant, and has also been an adjunct and full-time college faculty member teaching courses in business.
administration and aviation. He has also worked for many years with local, state, and federal government agencies on a variety of land use and infrastructure development issues.

Skeptic's View of Climate Change

Subject Area: History/Current Events, Science/Math/Technology

Tuesdays: 8 Sessions 9:00 AM - 10:45 AM
Start: Tue 2/6/24 End: Tue 3/26/24
Location: Online Zoom Offering 2 Class Size: 300

Course Description
Climate crisis hysteria is widespread and is driving political programs and decisions. We will use data to show that there is no crisis. Disasters such as landfalling hurricanes, tornadoes, droughts, floods, and forest fires are not increasing and deaths from disasters are down over 90%. Food production is increasing, hunger is down, the planet is greening, life expectancy has more than doubled since fossil fuel use has become widespread. The planet has warmed about 1 degree since the end of the Little Ice Age (1850). Is it natural? Has warming, such as we are experiencing today, ever happened before? Ocean influences such as El Nino / La Nina and the Indian Ocean Dipole create weather patterns that are often confused with climate change. What are ocean oscillations and how do they influence weather? "Green energy" is neither free nor environmentally friendly. Some of the costs associated with wind, solar, and batteries will be reviewed.

Time will be allocated for discussion and opposing viewpoints.

Instructor(s): Bob Barry

Bob has had three careers. He was a traditional Navy line officer serving in Destroyers and riverboats. After receiving an M. S in Oceanography he served 16 years as an oceanography specialist, primarily involved in Anti Submarine Warfare (ASW). His third career was as a program manager for satellite systems at Ball Aerospace. He has been an OLLI study group leader for 7 years teaching about observing the ocean from space. His emphasis has been on ocean oscillations and their impact on weather and climate.

Seeing Through Their Eyes: 20th Century Women Photographers and Artists

Subject Area: Arts/Culture

Tuesdays: 8 Sessions 11:00 AM - 12:45 PM
Start: Tue 2/6/24 End: Tue 3/26/24
Location: Online Zoom Offering 2 Class Size: 300

Course Description
This course will analyze the works of eight women artists of the 20th century. In addition to looking at their work, there will be accompanying videos and short readings to place the artists and their work in context. This is a discussion course not a lecture, so we encourage everyone to bring comments and questions to class.

Instructors: Leslye Friedberg, Judith Rockey

Leslye Friedberg, Professor Emeritus, taught writing and humanities at the Community College of Philadelphia and The University of Cincinnati. Her main areas of interest are interdisciplinary connections among literature, film, and art. For OLLI, she has taught film courses on the Holocaust in Film; The Screwball Comedy; and Great Hollywood Love Stories of the 1940s.

Judith Rockey is an avid photographer as well as a frequent OLLI instructor and Tech Host.
Curious Conversation, Inspired by the Bluegrass and American Roots Music at the Fox

Subject Area: Arizona History/Culture, Arts/Culture, History/Current Events, Travel/Entertainment

Tuesdays: Single session 1:00 PM - 2:00 PM  
Start: Tue 2/6/24  
End: Tue 2/6/24

Location: Online Zoom Offering 3  
Class Size: 300

Course Description
The Curious Conversations Series provides an opportunity to take a deeper dive into the musical genres being presented on the Fox's legendary stage and, in the process, form a more personal relationship with these cultural forms. Conversations are facilitated by local experts in the given genre, who are perfectly positioned to not only deepen our understanding of the musical tradition being explored, but to also share some of the ways that it currently lives and breathes in our little corner of the Sonoran Desert. This Curious Conversation anticipates the upcoming performance by the Wailin' Jennys.

Instructors: Jordan Wiley-Hill, Dan Levenson
Jordan Wiley-Hill is a professional storyteller, educator, and program developer. He manages the education and outreach activities for the historic Fox Tucson Theatre. A dynamic presenter, he draws heavily on his background in performance art and education, alongside a deep passion for the topics he shares.

Dan Levenson is an Appalachian native who has grown up with the music of that region. Today he is considered a respected master teacher and performer of both the clawhammer banjo and Appalachian style fiddle. Described as “The Johnny Appleseed of the Banjo,” he performs and teaches regularly throughout the world, including in England, Ireland, Israel, and Brazil. Dan is a two-time awardee of the prestigious Master Artist Award from Arizona's Southwest Folklife Alliance, has eight recordings of his own, and is one of the most prolific authors of instructional and tune books for clawhammer banjo and fiddle.

eBay & Craigslist: Selling the Treasures in Your Closet

Subject Area: DIY/Self-Help

Tuesdays: 2 Sessions 1:00 PM - 2:45 PM  
Start: Tue 3/5/24  
End: Tue 3/12/24

Location: Online Zoom Offering 3  
Class Size: 300

Course Description
Your SGL Bill Couchman has made over $20,000 selling several hundred items on the online platforms eBay and Craigslist. Craigslist is best for large/heavy items. Bill will give you tips on what sells and doesn't, how to create an ad, set up payment arrangements, and how to wrap and ship.

In the first of two classes, Bill will demonstrate how the eBay site works. We will create an ad and hope that it sells by the next week's class. In the second week, we will discuss shipping options, packaging it, and printing a postage label.

Instructor(s): Bill Couchman
Bill Couchman holds a B. E. from Yale University and MBA from Carnegie-Mellon University. He has 33 years in planning management at Ford Motor Company, has taught 10 OLLI different classes, several of them multiple times, and is a 20-year tax pro and Master Tax Advisor for Block Advisors. 81 years old and not retired yet!
Introduction to Hinduism: History, Religion, Philosophy, Culture

**Subject Area:** Philosophy/Spirituality/Religion
**Tuesdays:** 6 Sessions 1:00 PM - 2:45 PM  
**Start:** Tue 3/5/24  
**End:** Tue 4/9/24  
**Location:** Online Zoom Offering 1  
**Class Size:** 300

**Course Description**
This introductory course will provide an overview of Hinduism, the religion of India that originated about 3000 years ago. It will include a brief history about the origin of Hinduism and the contributions to it from different sources, the Religion of Hinduism and its many components, the different philosophies that underpin the religious practices, including the non-dualism of Vedanta; and the interactions between Hinduism and Judaism, Christianity, Islam. Also covered in the course are the rituals, practices, customs and festivals related to Hinduism.

Instructor: Pravin Soni
Pravin Soni is a native of India and immigrated to the US in 1973. He has been a student of the Hindu Philosophy of Vedanta for the past 35 years. He has a PhD in Polymer Science and Engineering and has been involved in early stage biotech companies for over 25 years.

Wisdom Keepers, Wisdom Givers

**Subject Area:** Philosophy/Spirituality/Religion, Social Sciences
**Tuesdays:** 3 Sessions 11:00 AM - 12:45 PM  
**Start:** Tue 3/19/24  
**End:** Tue 4/2/24

**Course Description**
As we age, we accumulate experience that in turn develops into wisdom. In certain cultures, it is thought that the "elders" are the keepers of wisdom, and in order to cultivate the wellbeing of future generations, it is important to share that wisdom. Our current Westernized culture has segregated generations, so that outside of familial relationships, there is little opportunity to share life lessons and wisdom in a meaningful, intergenerational context. Join us in this 3-session class as we learn about, explore, and discuss different aspects of wisdom, the development of wisdom and share life lessons and wisdom with young people through letter writing, and social media.

Instructor: Trish Chilton
Trish Chilton is a graduate student in the Psychology Department at the University of Arizona. She has a background in Gerontology, and specifically is part of the Social Psychology track with a minor in Neuropsychology. Trish's research interests include aging and wellbeing, wisdom, and intergenerational relationships. She is originally from North Carolina, and is the mother of four children ages 16-28.

TV Ad Wars: U.S. vs. The World

**Subject Area:** History/Current Events, Travel/Entertainment
**Tuesdays:** 2 Sessions 1:00 PM - 2:45 PM  
**Start:** Tue 3/26/24  
**End:** Tue 4/2/24

**Location:** Online Zoom Offering 2  
**Class Size:** 300

**Course Description**
Television advertising was invented in our lifetimes. It is a powerful tool of capitalism today. Much of it
is serious and sales oriented. But some advertisers take a lighter approach and give us offbeat and funny ads that delight. Reviewing the history of television advertising, we will compare lighthearted U. S. ads with those in other countries, primarily in Europe.

Instructor: Buzz Olson

Buzz Olson is a writer, photographer, and editor over a 30-year journalism career at several newspapers, including the Arizona Republic and the Denver Post. He was a contributor to the Pulitzer Prize-winning coverage of the 1999 Columbine high school massacre.

Wednesdays

Birding for Beginners (Online class plus optional field trip)

Subject Area: Science/Math/Technology

Wednesdays: 3 Sessions 9:00 AM - 10:45 AM
Start: Wed 1/24/24 End: Wed 2/7/24
Location: Online Zoom Offering 1 Class Size: 300

Course Description

Over 45 million Americans report "birding" or "bird-watching" as a hobby; wouldn't you like to give it a try too? Birding is a wonderful way to connect with beautiful living creatures outdoors, to observe their amazing behavior, and to challenge your mind. This course is a brief, hands-on introduction to the basics of observing and identifying the birds you see in Southeast Arizona. In 3 class sessions, we'll meet and learn about some popular Arizona bird species (via photos and videos) while we learn about choosing and using binoculars, how to spot and identify birds in the field using clues of size, shape, color pattern, behavior, and more. You'll discover the Merlin phone app, an easy way to carry an expert bird guide in your pocket. The fourth class session (optional) will be a 2-hour morning guided field trip to one of Laura's favorite Tucson (or Green Valley if you prefer) birding "hot spots".

The class sessions (the same material) will be offered twice: in person at Central Tucson, and online via Zoom. Choose the learning format you prefer. Field trips are in person, of course. You'll want to buy (or at least borrow) binoculars ($100 and up). If you don't already have binoculars, hold off buying until after the first class to learn more about how to choose before you buy.

Instructor: Laura Couchman

Laura Couchman is a dedicated amateur birder, spotting and identifying birds for 19 years. Laura and her husband Bill go birding locally and wherever they travel, and have lived in Tucson since 2014. Laura has been an SGL for previous OLLI classes about birds and birding, including habitat, woodpeckers, birds of prey, hummingbirds, and birders' tech tools.

She is also a volunteer field trip leader for the Tucson Audubon Society.

Reading Foreign Affairs and The Economist Magazines

Subject Area: History/Current Events

Wednesdays: 12 Sessions 11:00 AM - 12:45 PM
Start: Wed 1/24/24 End: Wed 4/10/24
Location: Online Zoom Offering 1 Class Size: 70

Course Description

Join us to read and discuss the news as reported in two of the world's most influential news magazines with wide appeal. Both are written for the general public not specialists. Foreign Affairs is the leading magazine for analysis and debate of foreign policy, geopolitics and international affairs. The Economist has an international perspective, examining countries and current developments on a wide
range of topics. A background in Economics is definitely NOT necessary.

Each week 3 or 4 class members volunteer to take a different article from the current issues and prepare a short summary and commentary for the class the following week. In addition, the entire class will read a major article or topic for group discussion.

Access to a print or digital version of one or both magazines is necessary. Discounted subscriptions may be available through U of A. Many discounted offers are available on the web. Also check availability on the Libby APP of the Pima County Library System. Digital Access usually provides access to articles from past issues. Join us for spirited discussions of interesting topics.

Instructor: Charles Wright

Charles is a retired architect. During his career he was involved in a number of projects for international organizations in Europe, Africa, Asia, South America and the Caribbean. Join us for some interesting discussions.

Beginning and Intermediate Spanish

Subject Area: Literature/Writing/Language

Wednesdays: 12 Sessions 1:00 PM - 2:45 PM
Start: Wed 1/24/24 End: Wed 4/10/24
Location: Online Zoom Offering 2 Class Size: 40

Course Description

This class is for students of Spanish from the Beginning to Intermediate levels. The class will be in two halves - beginning in the first half of the semester, intermediate in the second half. Beginning students will cover the basics: alphabet, pronunciation, basic vocabulary, the present tense, simple stories and poems, and basic grammar. Intermediate students will cover more extensive vocabulary, past, future, and subjunctive tenses, more involved stories and poems, and more grammar. Students may attend one or both sections of class. In both sections, listening, reading, speaking, and writing skills will be emphasized.

Instructor: Josephine Kelleher

Dr. Josephine Kelleher is a retired educator who has been studying Spanish for the past several years at OLLI. In addition to teaching at the university level, Dr. Kelleher has been a science and mathematics teacher at the middle school level, a high school assistant principal and principal, and superintendent of schools in three school districts. Dr. Kelleher earned a bachelor's degree in science and mathematics education and a master of arts in teaching in biological sciences from Rhode Island College, and a doctorate in educational leadership from the University of Connecticut.

International Development in North Africa

Subject Area: History/Current Events, Social Sciences

Wednesdays: 8 Sessions 1:00 PM - 2:45 PM
Start: Wed 1/24/24 End: Wed 3/13/24
Location: Online Zoom Offering 1 Class Size: 45

Course Description

This course offers an opportunity to explore the complexities and challenges associated with sustainable and community development in the region with a particular focus on Morocco. This course will also explore active development organizations in the region such as CorpsAfrica and Peace Corps. The program aims to provide participants with a comprehensive understanding of the socio-economic, political, cultural, and regional constituents that shape international development efforts in Morocco. In addition, the course will incorporate lectures, workshops, interactive discussions, and the opportunity to speak with
guest speakers active in the international development field. Participants will gain in-depth knowledge about the region's development strategies, initiatives, and potential for growth.

Instructor(s): Mourad Abdennebi

Mourad Abdennebi is a PhD Student from Morocco in the Second Language Acquisition and Teaching program. He can speak knowledgeably about North Africa, development in North Africa, Arabic, Moroccan culture and food, and other topics.

Whitehead's Process Philosophy

Subject Area: Philosophy/Spirituality/Religion

Wednesdays: 12 Sessions 1:00 PM - 2:45 PM

Start: Wed 1/24/24 End: Wed 4/10/24

Location: Online Zoom Offering 3 Class Size: 50

Course Description

The process philosophy of A. N. Whitehead has emerged as one of the most deep and dynamic philosophies of the 20th Century. After an impressive career at Cambridge University, he "retired" to spend his final creative years at Harvard where he developed an entirely fresh philosophy based on his revolutionary and complex understanding of reality as more a matter of interactions than entities. We shall take up only the most important highpoints of his complex but important book "Process and Reality".

Instructor: Jerry H. Gill

Jerry Gill is a long-time college professor, Ph. D. Duke University, teaching a wide spectrum of Humanities courses, mostly in philosophy and religious studies, most recently at Pima Community College. He is widely travelled and has led numerous semester abroad programs in Greece, Finland, and Mexico. He has published 30 books and over 100 scholarly articles. He is semi-retired.

Debunking Henry Ford: For Peace, Pluralism, and Music

Subject Area: History/Current Events

Wednesdays: 2 Sessions 9:00 AM - 10:45 AM

Start: Wed 2/14/24 End: Wed 2/21/24

Location: Online Zoom Offering 2 Class Size: 300

Course Description

Ford's anti-Semitic crusade (1920-1927) taught his readership a methodology of scapegoating, his ideological assigning of blame, at the expense of the Jews, and at the expense of clear thinking in the society. His mass-produced propaganda demonstrated this on subject after subject. We will look at Ford's treacheries on two of many possible topics - war and peace, including his pseudo-pacifism, and music.

Ford had three articles in his propaganda about music. One article smeared Jewish sacred music, hurtful in itself, but also setting up a template that would later be used against Islam. The team he had assembled helped him go beyond his personal knowledge. But Ford personally detested Jazz and claimed that Jews in music were responsible for its popularity. We'll look at some quotes from his propaganda, and his more discreet machinations behind the scenes.

The diffusion of Ford's thinking internationally, especially about war and peace, is one of many intangible factors complicating Middle East peacemaking. I am writing this blurb during an agonizing war, so different from my hopes.

Instructor(s): Evyn Rubin

Evyn Rubin is a versatile writer who has been working on the Debunking Henry Ford project for decades. By tackling the anti-Semitism of this dubious hero, she feels she is pitching in to prevent the spread of prejudice. She began by doing
amazing original research using primary sources, uncovering Ford's treacheries both obscure and well-known. She has shared her research and writing on the grassroots level, very successfully, in the Jewish community and the general community, doing workshops and classes, on panels, on the radio and online, at open mics and tabling events. She now has a book in progress.

**Two Facets of Our Current Reality**

**Subject Area:** Science/Math/Technology

**Wednesdays:** 2 Sessions 9:00 AM - 10:45 AM  
**Start:** Wed 2/14/24  
**End:** Wed 2/21/24  
**Location:** Online Zoom Offering 1 **Class Size:** 300

**Course Description**

I'd like to lead a discussion of two proactive topics. First: We are about to become an interplanetary society. How exactly will that happen (will it be mass colonization of Mars, mining operations in the asteroid belt, scientific outposts on the Moon, etc.)?  

Second: Where does mathematics fit into our understanding of reality? The discussion of math will be informal and relaxed. No knowledge of math or science will be assumed.

Instructor: Carl DeVito

Carl DeVito is an emeritus professor at the University of Arizona. Lately he has been active in the conceptual aspects of astro-biology, and participated in conferences on these matters over the past few years.

**Altruism Works: Exploring Local Non-profit Opportunities**

**Subject Area:** Civic Engagement/Community/Government, Crafts/Cooking, Social Sciences

**Wednesdays:** 6 Sessions 9:00 AM - 10:45 AM  
**Start:** Wed 3/6/24  
**End:** Wed 4/10/24  
**Location:** Online Zoom Offering 1 **Class Size:** 300

**Course Description**

Each week we will invite a different non-profit to come and talk about their mission, their work in Tucson and volunteer opportunities available to senior learners.

The goal of this class is to help members find a place to use their skills, and passion to give back to the greater community.

Instructor: Jan Fulwiler, PhD

Jan Fulwiler, MSSW, PhD is a retired psychologist who has facilitated positive psychology classes for 15 semesters at UW-Madison Division of Continuing Education and PLATO life long learning at the University of Wisconsin Madison. She is especially interested in positive psychology and what helps people thrive throughout their life span. She believes strongly in giving back to the greater community and believes in the power of altruism.
Autism Spectrum – It’s Not What We Thought

Subject Area: Health/Wellness

Wednesdays: 2 Sessions 3:00 PM - 4:45 PM
Location: Online Zoom Offering 1 Class Size: 300

Course Description
When people (grandparents, parents, teachers, nephews, etc.) realize that I work with autism spectrum, I get questions. I'll try to answer them in this presentation/discussion, as well as help you understand how an autistic person's mind might work. The more you understand, the more you can be helpful. In a nutshell: we are wired for intersubjective experiences, and we are wired to be investigative, to seek patterns, and to be curious. From the beginning, some infants are more interested in interactions with others, and some more interested in interacting with objects. With some, an interest in objects seems all encompassing. We now think that problems with coordinating a sensory motor sense with affects and cognitions, are difficult, and make it hard for the autistic child to reach toward others. The course will use video clips that illuminate the intersubjective world of an autistic person, as well as clips that parents have added to YouTube so that other parents can learn from them. I will also show some clips from documentaries of parents helpfully interacting with their autistic child. I'll also talk about how experiencing difficulties in childhood might impact the adult person on the spectrum, and how treatment might go. The class will be both lecture and discussion.

Instructor: Pamela Hays
Pam Hays is in private practice as a psychotherapist and psychoanalyst. She has worked with people on the autism spectrum since 2000, including their parents, and, in the last few years, has been engaged in understanding current research and clinical studies of autism. Her primary orientation is neuropsychological, developmental, cognitive, and psychoanalytic. She is also an adjunct faculty member at the level of Clinical Assistant Professor at University of Arizona Health Sciences Center. She has completed training in Psychoanalysis through the Arizona Center for Psychoanalytic Studies, and has trained in Mentalization Based Treatment, as well as DIR (Developmental, Individual Differences).

Computer Security Overview

Subject Area: DIY/Self-Help, Science/Math/Technology

Wednesdays: Single session 3:00 PM - 4:45 PM
Location: Online Zoom Offering 1 Class Size: 300

Course Description
Harry will discuss how to keep your computer (and phone) safe when using email, messaging, the internet and apps.

Instructors: Sherry Goncharsky, Harry Elver
Sherry Goncharsky worked at IBM as a programmer and systems engineer after studying computer science at the University of Illinois. As a retirement job, she spent time "teaching computers to behave for their owners." Soon after joining OLLI, the pandemic hit and she became an active part of the tech hosting community and is also part of the AV Committee. Her hobbies include reading and crocheting.

Harry Elver is owner of Computer Guy Consulting, a Tucson business providing computer consulting services for over 20 years. They specialize in backup solutions, data recovery, and general computer and network support for business and home offices.
Thursdays

**War in the Skies: Europe 1939-1944**

**Subject Area:** History/Current Events  
**Thursdays:** 4 Sessions 9:00 AM - 11:00 AM  
**Start:** Thu 1/25/24 **End:** Thu 2/15/24  
**Location:** Online Zoom Offering 3 **Class Size:** 300

**Course Description**  
This course explores how the arrival of airplanes on the battlefield changed the very nature of warfare. With specific focus on the Luftwaffe, the Royal Air Force, and the United States Army Air Force during WWII, we will explore the development of aviation and air power in the years leading up to the war and the greatest clash of machines in the history of armed combat. The presentation also describes how each air force enjoyed its own "Finest Hour" and how American industrial might brought victory, but only after an enormous cost in men and aircraft.

The format is lecture integrated within a PowerPoint presentation that includes graphics, animated maps and embedded video clips. All participants will receive a 50-page Aircraft Encyclopedia, structured note taking pages, bibliography, and Cast of Characters. All are delivered electronically and are used as each participant sees fit.

Instructor: Buck Beasom  
Buck Beasom has a two-track career that includes 40 years of professional experience as a VP of Finance and applications developer with a parallel 30-year career as a teacher of Business Courses and History. A long-time student of World War II he has developed multi-media courses on the Air War in Europe and the Air War in the Asia/Pacific theater. He teaches for OLLI Chapters across the country.

**Inner Child Work: Facing Our Shame, Fear, and Trauma**

**Subject Area:** DIY/Self-Help, Health/Wellness, Philosophy/Spirituality/Religion  
**Thursdays:** 9 Sessions 11:00 AM - 12:45 PM  
**Start:** Thu 1/25/24 **End:** Thu 3/21/24  
**Location:** Online Zoom Offering 2 **Class Size:** 30

**Course Description**  
Carl Jung introduced people to the Inner Child in the last century. Since that time, myriad psychological theorists, authors, and practitioners have written profusely and utilized numerous methodologies around this concept. In expanding Jung's original model, modern-day constructs have evolved to create many therapeutic resources, including trauma informed practices.

What does the concept of the Inner Child mean to you? Do you believe that Inner Child work can help people to free themselves from the bondage of their childhood wounds, especially shame, fear, and trauma? Have you befriended your Inner Child?

Utilizing ideas from Jung to present day psychological theorists, authors, and practitioners as the springboards for discussion, we will explore the concept of the Inner Child. Our conversations will involve ways to integrate and work to heal from shame, fear, and trauma through befriending the Inner Child.

During our time together, we will touch upon the ideas of several healing pioneers and present-day trauma theorists. Discussion starters will be made available before every class. Handouts for further reading will be shared as well.

Please join us for these nine sessions. Bring your knowledge, beliefs, experiences, insights, and wisdom to share in our conversations.
Please know that this discussion group is not intended to replace your own psychological therapeutic work.

Instructor: Mary Ellen Klawiter
Mary Ellen lived her first fifty years in Philadelphia, Pennsylvania where she worked as an educator, a Director of Religious Education, and a Hospice Chaplain. Since moving to Sahuarita, Mary Ellen received an M. S. in Mental Health Counseling and counseled at-risk teens, pre-teens, and people struggling with loss. Her undergraduate work was in History and Theology and her graduate theological studies were in Religious Education and Clinical Pastoral Education.

**Canceled: The Screwball Comedy: Film Analysis and Discussion**

**Online Film Discussion Class**

**Subject Area:** Arts/Culture

**Thursdays:** 12 Sessions 1:00 PM - 2:45 PM

**Start:** Thu 1/25/24  **End:** Thu 4/11/24

**Location:** Online Zoom Offering 2  **Class Size:** 300

**Course Description**
We will meet weekly to discuss a selection. I will choose the first film and present it. In each class, the next film will be chosen by the group. After the first class, a class member will be asked to introduce the film. This class has been ongoing for several years and generates lively and controversial discussions as members consider and compare the
chosen films. Participants call upon their knowledge and experience to provide insight into all aspects of the films. Prior to the class, we will watch films from the past 4 years chosen from Netflix, Kanopy, and Amazon. Some films will include a fee to view. Older films or films from other viewing services may rarely be proposed.

Instructor: Trudy Hill

Trudy Hill has an MS degree in Art Education from UW Madison and has taught art and reading to elementary, junior high, and adult students. She was a co-SGL for Science Fiction and Poetry Classes and SGL for Calligraphy Class. She is an SGL for Film and Poetry Discussion classes. Her background includes working for Visa International as an architect of computer chips on payment cards and Visa systems that support them. Since she was a young girl, she has loved reading everything, watching films and making art (still does)!

Enjoy the music of legendary songwriters such as Carole King & Gerry Goffin, Neil Sedaka & Howard Greenfield, Barry Mann & Cynthia Weil, Phil Spector, Jerry Leiber & Mike Stoller, Doc Pomus & Mort Shuman, Ellie Greenwich & Jeff Barry, Burt Bacharach & Hal David, Neil Diamond, and others.

Rediscover the tunes from Elvis Presley, the Coasters, Dion and the Belmonts, the Drifters, Dionne Warwick, the Ronettes, the Shirelles, the Animals, the Monkees, Manfred Mann, Andy Williams, the unforgettable Righteous Brothers, and many others who left us with a treasure trove of great music.

Join me on this journey to delve into the melodies, stories, and vibrant personalities behind the Brill Building era during the late 1950s and 1960s.

Instructor: Michael Agron

Michael Agron, a music aficionado, brings his passion to OLLI for the third time after captivating audiences with seminars like "This is Sinatra!" and "Celebrating Perfect Vocal Harmony Groups." He grew up in LA, the heart of the recording & entertainment industry. His love for music initially led him towards dreams of becoming a recording engineer. However, a career in hi-tech, including founding a webinar marketing agency, beckoned. Michael considers himself fortunate to share his passion for music and entertainment, having delivered numerous distinctive seminars over twelve semesters to the Sacramento Renaissance Society and numerous OLLI chapters across the nation.

**Dream Group Class**

**Subject Area:** Social Sciences

**Thursdays:** 12 Sessions 3:00 PM - 4:45 PM

**Start:** Thu 1/25/24 **End:** Thu 4/11/24

**Location:** Online Zoom Offering 1 **Class Size:** 30

**Course Description**

Learn how to access the valuable information in your dreams! Attendees share texts of their nighttime dreams and are invited to contribute their associations and insights into others' dreams. Various techniques of interpretation will be demonstrated, such as "If it were my dream." The group format opens multiple perspectives and layers of meaning. "Aha's" of recognition follow as we unpack the dream. In this process we learn to listen to our intuition, increase compassion for others, discover deeper aspects of ourselves and receive guidance.

Instructor: Helen Landerman

Dr. Landerman has been curious about the meaning of her dreams and writing them down for decades. She has continuously participated in dream groups and facilitates dream groups. Because dreams speak a language of visual symbols, her Harvard Ph. D. in Romance Languages and Literatures has enabled her fascination for metaphors and archetypes. She has 15 years of experience teaching at the college level. She is certified by Jeremy Taylor's Marin Institute for Projective Dream Work and is a long-time member of the International Association for the Study of Dreams and of the Southern Arizona Friends of Jung.

Separation of Church and State: Vital in 1787, Critical Now

Subject Area: History/Current Events

Thursdays: Single session 9:00 AM - 10:45 AM
Start: Thu 2/22/24 End: Thu 2/22/24
Location: Online Zoom Offering 3 Class Size: 300

Course Description
American Presidents from Washington and Jefferson to JFK and Reagan believed the wall of separation between church and state must be absolute. This concept is enshrined in our Constitution's 1st Amendment. This class will look at the history of this foundational principle and why the "wall of separation" is more critical than ever to protecting Americans' freedom. The presenter represents Congregation Beth Adam's (located in Cincinnati, OH) social justice committee which has studied this issue for 3 years and hopes to educate others about its current significance.

Instructor(s): Michael Goldman

Michael Goldman is the Chair of the Social Justice Committee at Congregation Beth Adam (Cincinnati, OH). He has an MFA in playwriting and worked as a writer in New York and Los Angeles. Mr. Goldman has run and consulted many local political campaigns, as well as having served, or led, several Cincinnati civic organizations.

Only Hope: My Mother and the Holocaust Brought to Light

Subject Area: History/Current Events, Literature/Writing/Language

Thursdays: Single session 3:00 PM - 4:45 PM
Start: Thu 2/29/24 End: Thu 2/29/24
Location: Online Zoom Offering 2 Class Size: 300

Course Description
Before she passed away in 1974, Felicia Bornstein Lubliner wrote about her life in Nazi-occupied Poland during the Holocaust, including her internment in ghettos and two concentration camps, Auschwitz and Gross-Rosen. Her powerful stories have been published by her son, Irv Lubliner, who also contributed the foreword and afterword to "Only Hope: A Survivor's Stories of the Holocaust." He will share excerpts from the book, shedding light on his mother's experiences and indomitable spirit, as well as his own experience as a child of Holocaust survivors and his process in bringing the book to fruition. He will pause during and after his presentation to invite questions and discussion.

Instructor: Irv Lubliner

Irv Lubliner teaches math, music, and literature classes for the OLLI program at Southern Oregon University, where he also served on the Council of Directors. An emeritus professor specializing in mathematics education, he taught for 40 years and led seminars for math teachers in 39 states. In 2019, he created Felabra Press and published his mother's writing about her experiences during the Holocaust, the book that will serve as the theme for this presentation.
Race Matters: Black Lives in the Supreme Court 1787-2023

Subject Area: Civic
Engagement/Community/Government, History/Current Events, Social Sciences

Thursdays: 3 Sessions 3:00 PM - 4:45 PM
Start: Thu 3/7/24 End: Thu 3/21/24
Location: Online Zoom Offering 3 Class Size: 300

Course Description
Interested in learning about the U.S. Supreme Court's evolving jurisprudence on slavery and civil rights from the founding to the present day? University of Cincinnati political science professor emeritus Howard Tolley will introduce the Articles and Amendments of the Constitution and federal laws addressing slavery, equal protection, and race discrimination applied by the Justices in deciding disputes impacting African Americans. The court’s rulings on disparate criminal penalties, slaveowners’ property rights, voter suppression, gerrymandered election districts, Jim Crow “separate but equal” treatment, states' rights, school segregation, the death penalty, affirmative action, lethal use of force by police, and prosecutorial immunity provide a critical perspective on the legal system's evolving approach to resolving disputes over black lives.

Instructor: Howard Tolley
Prior to retirement in 2011, Howard Tolley served as a Professor of Political Science and Adjunct Professor of Law at the University of Cincinnati where for 27 years he taught undergraduate and graduate public law courses on the U.S. legal system, Supreme Court, civil liberties, and international human rights. As a professional neutral, he also served as a labor law fact finder and arbitrator. He offers Supreme Court classes for OLLI in Ohio, Florida, Oklahoma, and Arizona where he spends the winter.

Ancient Egypt’s Middle Kingdom

Subject Area: History/Current Events

Thursdays: 4 Sessions 3:00 PM - 4:45 PM
Start: Thu 3/14/24 End: Thu 4/4/24
Location: Online Zoom Offering 2 Class Size: 300

Course Description
Ancient Egypt was one of the earliest and greatest civilizations. Unified around 3,000 BCE, Ancient Egypt is responsible for such wonders as the Great Pyramid (the tallest structure in the world for over 4,000 years, built in the Old Kingdom) and the Karnak Temple complex (one of the largest religious buildings ever built, primarily constructed in the New Kingdom). The Middle Kingdom of Ancient Egypt falls between the Old and New Kingdoms. It was a time of recovery and transformation following a period of instability. It is harder to define than the Old or New Kingdoms, but it was a time when the art, architecture, and literature of the civilization developed rapidly. The art was like nothing that came before it and it influenced everything that came after. The Middle Kingdom contributed immensely to what we recognize as the culture of Ancient Egypt today and it was a period of great prosperity. Join me for this four-week study group, where we will explore Ancient Egypt in the Middle Kingdom.

Instructor: Nic Richmond
Nicola Richmond is the Vice Chancellor of Strategy, Analytics and Research at Pima Community College. She oversees strategic planning, institutional and operational effectiveness, federal and state reporting and ad hoc reporting at the institution. She has an extensive data analysis and research background that most recently focuses on higher education, but her experience also includes the
analysis of magnetometer data for the moon and Mars, and the application of cellular automata models to coastal environments. She has a Ph.D. in Geology from University College London. Her doctoral research focused on the incorporation of aluminum and iron into deep Earth magnesium silicate minerals using numerical modeling approaches from quantum mechanics and solid state physics. Nic has a strong interest in cross-disciplinary research approaches, taking techniques from the sciences and bringing them to higher education research.

**Legacy of Holocaust Survivors: The Challenges, Gifts and Impact**

**Subject Area:** Health/Wellness, History/Current Events, Philosophy/Spirituality/Religion

**Thursdays:** Single session 9:00 AM - 10:45 AM

**Start:** Thu 4/4/24 **End:** Thu 4/4/24

**Location:** Online Zoom Offering 2 **Class Size:** 60

**Course Description**

How do you talk about and make sense of your life when you grew up with parents who survived the most unimaginable horrors of family separation, systematic murder and unending encounters of inhumanity?

For Holocaust survivors, liberation did not lead to a happily-ever-after fairy tale. Survivors were often told to forget about it and move on, and the rest of the world was not ready to hear their stories, so they had few avenues to process their anger and grief.

In the award-winning anthology, The Ones Who Remember; Second-Generation Voices of the Holocaust, sixteen descendants of survivors take on the legacy of their parents' survival, speaking through their own intergenerational lenses, revealing the many ways their parents' Holocaust traumas and survival seeped into their souls and then affected their subsequent family lives" whether they knew the bulk of their parents' stories or nothing at all.

This class will explore and encourage discussion around themes including the impact of dehumanization, post-traumatic growth and healing, and forgiveness. We will also discuss the impact of intergenerational trauma for anyone who has lived in the shadow of pain and suffering.

**Instructor:** Ruth Wade

Ruth Finkel Wade is the daughter of Holocaust survivor Sidney Finkel, a Tucson resident. She is a docent and speaker at the Florida Holocaust Museum in St Petersburg, Florida, and editor of and contributor to the award-winning book The Ones Who Remember; Second-Generation Voices of the Holocaust. Ruth grew up in Chicago, Illinois and spent 25 years living in Ann Arbor, Michigan. She now resides in Largo, Florida.

**Humor: A Healing Tool**

**Subject Area:** DIY/Self-Help, Health/Wellness, Philosophy/Spirituality/Religion

**Thursdays:** 2 Sessions 11:00 AM - 12:45 PM

**Start:** Thu 4/4/24 **End:** Thu 4/11/24

**Location:** Online Zoom Offering 2 **Class Size:** 30

**Course Description**

As soap is to the body, so laughter is to the soul. Jewish Proverb

What makes you laugh, or giggle, or chuckle? Can humor provide ways to heal people physically, emotionally, and spiritually? Is there a relationship between humor and suffering? Can utilizing humor help people to reclaim their souls?

Through sharing ideas and theories about the psychological benefits of humor, we will discuss
how a sense of humor and laughter can help us to heal. In addition, we will take some time to talk about what tickles our funny bones.

Please join us for these two sessions to learn and to laugh. Bring your knowledge, beliefs, experiences, insights, wisdom, and sense of humor to share in our conversations.

Please know that this discussion group is not intended to replace your own psychological therapeutic work.

Instructor: Mary Ellen Klawiter

Mary Ellen lived her first fifty years in Philadelphia, Pennsylvania where she worked as an educator, a Director of Religious Education, and a Hospice Chaplain. Astronomy/Geosciences

Subject Area: Science/Math/Technology

Fridays: 6 Sessions 1:00 PM - 2:45 PM
Start: Fri 1/26/24 End: Fri 3/8/24 - No Class February 9
Location: Online Zoom Offering 1 Class Size: 300

Course Description
Our exploration of the Earth, Solar System, and Universe continues. This semester our key topic will be the Cosmological Toolkit. This Toolkit will include such concepts/theories/laws/insights as the Eddington and Roche limits, Redshift, Cosmic Distances, Kepler Laws, the Hertzsprung-Russell diagram, Stellar Magnitudes, Lagrange Points, and the EM spectrum, to name a few. We will discuss these in the context of on-going discoveries in Astronomy, Planetary Sciences, and Earth Sciences. Information will be conveyed using short videos, awesome photos, understandable/fun graphics, and class discussions. We will have several guest speakers from the University of Arizona’s Astronomy, Planetary Sciences, and Geosciences Departments. Science Fiction Theatre continues, with short clips highlighting a century of Sci Fi movies and TV shows. Please join us for this continuing journey of discovery and adventure. Being in an earlier Astronomy/Geosciences class I
have hosted is neither a prerequisite nor necessary to understand and enjoy this class.

Instructor: Guy Jette

Guy retired from the U. S. Air Force after 37 years working in Research and Development in both the aeronautical and space fields. He holds MBA and MS degrees, and is an Associate Fellow of the American Institute of Aeronautics and Astronautics. He has worked in astronomy outreach for the past ten years as a docent at Kitt Peak National Observatory. He has also been a frequent guest speaker at the University of Hawaii Institute for Astronomy on Maui.

Archaeology of Early Agriculture and Irrigation in the Southwest

Subject Area: Arizona History/Culture, Arts/Culture, Social Sciences

Fridays: 2 Sessions 3:00 PM - 4:45 PM    Start: Fri 1/26/24   End: Fri 2/2/24
Location: Online Zoom Offering 1    Class Size: 300

Course Description
People have lived in what is now the southwestern United States for at least 13,600 years, probably longer. For nearly the first 10,000 years of that history they were highly nomadic. At first, they relied on the hunting of big-game animals, but by about 10,000 years ago they became more focused on foraging for wild plant foods. But then, over 4,000 years ago, the introduction of plant cultivation changed southwestern lifestyles dramatically. To practice farming, people had to stay near their gardens and fields for substantial portions of the year, which led to the establishment of the first relatively permanent settlements; and to grow crops in the hot deserts they began using irrigation. In this course, archaeologist Allen Dart will illustrate and discuss archaeological discoveries that have brought this early era of human history to life.

Instructor: Allen Dart

Registered Professional Archaeologist Allen Dart has worked in Arizona and New Mexico since 1975 for federal and state governments, private companies, and nonprofit organizations. He is the executive director of Tucson’s nonprofit Old Pueblo Archaeology Center, which he founded in 1993 to provide educational and scientific programs in archaeology, history, and cultures. Al has received the Arizona Archaeological Society’s Professional Archaeologist of the Year Award, the Arizona Archaeological and Historical Society’s Victor R. Stoner Award, the Arizona Governor’s Archaeology Advisory Commission Award in Public Archaeology, and other honors for his efforts to bring archaeology and history to the public.

Chen Village Tai Chi

Subject Area: Health/Wellness, Philosophy/Spirituality/Religion

Fridays: 9 Sessions 9:00 AM - 10:45 AM    Start: Fri 2/2/24   End: Fri 3/29/24
Location: Online Zoom Offering 2    Class Size: 70

Course Description
No previous Tai Chi experience is necessary. All the movements are slow and gentle, and no martial arts applications will be taught or practiced in this study group. These methods may help lessen body pain, correct spinal misalignment, cultivate a sense of internal energy, and rest the mind.

Participants can wear comfortable roomy or stretchy clothing and some soft tai chi shoes or socks to wear on their feet.

Instructor: Randall Krause

Randall Krause served many years as an attorney and conflict resolution facilitator. Later, he studied counseling and received a M. A. in interdisciplinary...
consciousness studies with an emphasis in holistic health counseling, was certified and served as a personal coach and mentor. He studied Effective Communication intensively and also studied The Gremlin Taming Method for more than 10 years. In addition, Randall is a senior mentor and teacher in the Himalayan yoga meditation tradition and is registered with Yoga Alliance (YA) as an Experienced Yoga Teacher and a Continuing Yoga Education Provider.

**What's the Big Deal? Let's Read and Discuss a Banned Book**

**Subject Area:** History/Current Events, Literature/Writing/Language

**Fridays:** 3 Sessions 3:00 PM - 4:45 PM  
**Start:** Fri 2/9/24  
**End:** Fri 2/23/24

**Location:** Online Zoom Offering 1  
**Class Size:** 30

Additional Costs: Members will be encouraged to buy the novel and stream the movie; however, neither is required.

**Course Description**

What makes a book so controversial that some people and/or groups want to have it banned from certain libraries? Let's find out together as we read and discuss one of the books causing such a controversy. The Hate U Give was written by Angie Thomas. We'll read and discuss the book and then watch the movie that was based on the book. Members will want to purchase the book and stream the movie before the classes start. The reasons cited for the book being banned are extreme violence, use of profanity, and anti-police messages. The three-session class will begin with some facts and figures about the past and present books that are considered "banned". During the second class, we'll discuss the book by Ms. Thomas. The last class will focus on the movie. Many books are presently being banned by people and/or groups that have not even taken the time to read the books in question. Both sides of the banning issue are welcome, but only after reading one of the books in question. Sound fair to you? Then please join me for this class. We may disagree about the issue, but let's agree to not become disagreeable.

**Instructor:** Frankie Harris

Frankie is a retired teacher from South Carolina. She joined the University of Arizona's OLLI program when Covid caused her local OLLI at Coastal Carolina University in Conway, South Carolina to close. She has been an active member from the very beginning of her enrollment. She has taken numerous classes and she's even led several SIGs. The wide variety of classes offered, and the warm, welcoming people that she has met are what keeps her returning each year.

**Subject Area:** Civic Engagement/Community/Government, Health/Wellness, History/Current Events

**Fridays:** Single session 9:00 AM - 10:45 AM  
**Start:** Fri 3/8/24  
**End:** Fri 3/8/24

**Location:** Online Zoom Offering 3  
**Class Size:** 300

Course Description

The landscape of HIV/AIDS in our community has changed drastically, especially over the past five years. While it may not receive much media attention, there are amazing new developments in the field of HIV prevention and treatment.

Join us for a presentation and discussion with Scott Blades, Executive Director of the Tucson Interfaith HIV/AIDS Network (TIHAN). He will be providing an update about HIV today, including a brief overview of TIHAN, the needs they see, and the people they serve. He'll talk about key terms in the world of HIV including undetectable, U=U, PrEP, and PEP. You
may not hear much about HIV today, but there are more people living with HIV than ever before. Join us and learn more about the realities of HIV today.

Instructor: Scott Blades

Scott Blades is the founder and Executive Director of the Tucson Interfaith HIV/AIDS Network (TIHAN), a coalition of individuals, businesses, faith communities, and nonprofit groups. He has been featured in multiple print and video news stories, and has received several awards for his leadership in addressing HIV and working to help people with HIV to live well.

Lessons From the Vietnam War

Subject Area: History/Current Events

The British Are Coming: The Beginning of the American Revolution

**Subject Area:** History/Current Events

**Mondays:** 10 Sessions 7:30 AM - 9:00 AM

**Start:** Mon 1/22/24  **End:** Mon 3/25/24

**Location:** Online Zoom Offering  **Class Size:** 300

Course Description

Shared From OLLI at Rochester Institute of Technology

Why did 13 of Britain's North American colonies declare their independence in 1776? The answer is neither simple nor obvious. Following Britain's victory in the Seven Years' War, most colonists were proud British subjects with no interest in independence. We begin by investigating the improbable series of events in the 12-year interval between 1763 and 1775 that led to the American Revolution. We go on to ask how the largely amateur colonial army, confronted by the professional British army and their Hessian mercenaries, survived the first two years of the War up to the Battles of Trenton and Princeton.

Note: Daylight Savings Time begins on March 10, 2024. After that date, this class will begin at 6:30 AM Arizona time.

The Poetry of Hamlet

Subject Area: Literature/Writing/Language

Mondays: 10 Sessions 11:30 AM - 1:30 PM
Start: Mon 1/22/24 End: Mon 3/25/24
Location: Online Zoom Offering Class Size: 25

Course Description

Hamlet is arguably Shakespeare’s greatest play and probably the one in which the meaning is most carried by the complexity of the poetic language. We’ll explore this language in depth to see how and whether doing so can answer some of the perennial interpretive issues with this play including whether (and how) Hamlet is mad, and whether Hamlet’s error is to hesitate—or to act too precipitously.

Saving Abu Simbel

Subject Area: History/Current Events

Mondays: Single session 9:15 AM - 10:45 AM
Start: Mon 2/5/24 End: Mon 2/5/24
Location: Online Zoom Offering Class Size: 300

Course Description

When the Egyptian government began planning the construction of the High Aswan Dam in the 1950s, archaeologists raised concerns that the ancient temples in the region would be submerged in the lake created by the new dam. Chief among these sites were the enormous temples at Abu Simbel that were built by Ramses II in the 13th century BCE. The massive project to save these sites, coordinated by UNESCO, is the subject of this class. We will look at the individuals who championed the project and see what it took to move and preserve these impressive structures.

Instructor: Chris Ryan

Chris Ryan, a retired librarian, enjoys sharing her love of history with others.

Anna Rosenberg: Confidante of Presidents

Subject Area: History/Current Events

Mondays: Single session 9:15 AM - 10:45 AM
Location: Online Zoom Offering Class Size: 300

Course Description

Over seven decades, Rosenberg was a trusted adviser, friend, and confidante to Presidents FDR, Truman, Eisenhower, and Johnson. Her fingerprints
were on everything from the Manhattan Project to the GI Bill to the desegregation of the military. Life magazine called her "far and away the most important woman in American government." She was the first person to be awarded the Medal of Freedom, the Congressional Medal of Honor, and the US Medal of Merit. And yet, most people today have never heard of her. Let's remedy that situation.

Instructor: Michelle Turner

Michelle Turner has presented many lectures on topics as diverse as the architect Frank Gehry to the Bosnia-Serbian War to Women Photographers to Surrealist Artists. This course was inspired by reading The Confidante by Christopher Gorham, the story of one of the most powerful women in the US government from 1933-1969.

Knitting with others is a wonderful learning environment. This class is designed to give knitters who have mastered the basic stitches of knit and purl a chance to work on a project of their choosing while we chat and share ideas online with other knitters. All levels of ability are welcome! Gale contributes to the class by offering tips and suggestions for patterns, yarn, and tools based on her years of knitting experience.

Note: Daylight Savings Time begins on March 10, 2024. After that date, this class will begin at 3:00 PM Arizona time.

Instructor: Gale Ulvang

Gale Ulvang, a life-long knitter, has made a hobby out of collecting odd bits of information and techniques she can use to improve her knitting projects. She promotes using internet resources to find patterns and expand skills and loves sharing that knowledge with others. She learned the Fibonacci sequence as a scheme for striping in hats and scarves and was inspired to learn more about how it can improve artistic composition.
A History of Africa

Subject Area: History/Current Events

Tuesdays: 10 Sessions 7:30 AM - 9:00 AM
Start: Tue 1/16/24 End: Tue 3/19/24
Location: Online Zoom Offering Class Size: 300

Course Description
Shared From OLLI at Rochester Institute of Technology

Africa is widely recognized as the "cradle of humankind". It is a large and diverse continent that extends from South Africa northward to the Mediterranean Sea, making the continent one-fifth of the total land surface of the Earth. Africa saw the rise of great kingdoms, faced the trans-Atlantic slave trade, colonization by Europeans and Apartheid. This course will explore the many facets of Africa's history cultures, ideologies, governments, arts, and music built by the 54 countries of Africa.

Note: Daylight Savings Time begins on March 10, 2024. After that date, this class will begin at 6:30 AM Arizona time.

Instructor: Marie Levin
After a career in clinical laboratory science, Marie Levin enjoys studying history. She has led courses in the history of the Middle East, Greece, Rome, Russia, Egypt, the Vikings, and India.

**Death and Renewal? The Persistent Process - From Death Comes Life**

**Subject Area:** Literature/Writing/Language, Philosophy/Spirituality/Religion, Science/Math/Technology

**Tuesdays:** 10 Sessions 11:30 AM - 1:00 PM

**Start:** Tue 1/16/24 **End:** Tue 3/19/24

**Location:** Online Zoom Offering **Class Size:** 300

Course Description

Shared From OLLI at Rochester Institute of Technology

Death is universal and happens not only to animals and plants, but also to entire species and to stars. Renewal depends on death: a dying star's supernova is the source of essential atomic elements; the extinction of living species makes room for new species. Within this larger context, the biology of human death is not straightforward. How and where we die is quite negotiable, yet ultimately accepting and understanding death defines the human experience. Philosophers strive for this understanding. Some theologians write about salvation history, and others speak to reincarnation. Accepting and understanding death often defines the human experience in poetry, literature, and opera.

Note: Daylight Savings Time begins on March 10, 2024. After that date, this class will begin at 10:30 AM Arizona time.

Instructors:

Our team of Lisa Jadwin, Sharyl Courter, Donna Richardson, Kim Haynes, Tom Jones, Roger Gans, Victor Poleshuck, and Tom Low consists of a doctor, two engineering professors, two English professors, a retired educator, a healthcare/biotech professional, and a bureaucrat. We are all retired
and think ourselves qualified to argue endlessly about the meaning of death and renewal.

What About the Women: Stories from the American Revolution

Subject Area: History/Current Events

Wednesdays: 5 Sessions 9:15 AM - 10:45 AM
Start: Wed 1/17/24 End: Wed 2/14/24
Location: Online Zoom Offering Class Size: 300

Course Description

Shared From OLLI at Rochester Institute of Technology

The American Revolution is usually told through the lives of the Founders and Fighters. But what about the women? Whether Patriots, Loyalists, African Americans or Indians, women played their part in the great upheaval that was the making of America. With war raging around them and their men away, women struggled to keep families intact, farms or businesses afloat. Others were driven from their homes by hostile neighbors loyal to the other side. Whether highborn or low, women in the colonies had to find new paths to survive as the war dragged on for eight years. Diaries, letters, and oral histories tell their stories.

Instructor: Debbie Huff

Debbie Huff, whose ancestors fought in the American Revolution, enjoys researching narrative sources of the period to find the hidden stories behind the traditional telling of history. She has led courses at Osher since 2008.

Location: Online Zoom Offering Class Size: 300

Course Description
Shared From OLLI at Rochester Institute of Technology

We will study John Huston, director, screenwriter, and character actor, whose career endured over five decades. Huston, "one of the most influential, prolific directors of any era", often explored "characters struggling for individuality despite constraints from the world around them", in films such as The Maltese Falcon (1941), The Treasure of the Sierra Madre (1948), The Asphalt Jungle (1950), The African Queen (1951), The Red Badge of Courage (1951), The Misfits (1961), The Man Who Would Be King (1975), Wise Blood (1979), Prizzi's Honor (1985), and The Dead (1987).

Note: Daylight Savings Time begins on March 10, 2024. After that date, this class will begin at 6:30 AM Arizona time.

Instructor: Mary Ann Satter
Early in life Mary Ann Satter discovered how film could show her what she could otherwise never see; capture and preserve light and beauty; and even defeat time and loss. Teaching film for the last five decades, she has tried to pass that awareness and appreciation on to other people.

**Class Size:** 20

**Course Description**
Empire Ranch has been a working cattle ranch for over 140 years. In 1876 the ranch was acquired for $2,000 by Walter L. Vail, for whom Vail, AZ is named. The ranch house itself started as a four-room adobe house with packed dirt floors and grew to a twenty-two room home with a Victorian master suite. This easy-walking, one hour, docent-led tour reflects the history and evolution of ranch life in SE Arizona from the 1870s to present time. After the tour visitors may continue to explore the ranch on their own, including hiking, picnicking and driving throughout the property. Located on US Route 83 approx. 22 miles south of Vail, AZ. Please note that transportation/carpooling is not provided. Detailed information and directions will be sent about a week prior to your visit. There is no entry fee.

Donations are not required but will be gladly accepted on the day of the field trip.

**Amerind Museum and Art Gallery Bus Trip**

**Subject Area:** Arizona History/Culture  
**Fridays:** Single session 9:30 AM - 3:00 PM  
**Start:** Fri 4/5/24  
**End:** Fri 4/5/24  
**Location:** Amerind Foundation Museum and Art Gallery  
**Class Size:** 52  
**Additional Costs:** $56.00 (Charter Bus, Admission Fee, Lunch)

**Course Description**
Join us for a very special charter bus trip (about 1 hour) to explore the rich history of Native American cultures at the Amerind Foundation Museum and Art Gallery in Dragoon, AZ.

"Amerind seeks to foster and promote knowledge and understanding of the Native Peoples of the Americas through research, education, conservation, and community engagement. A museum, art gallery, and research center dedicated to archaeology, Native cultures, and Western art. Located in Dragoon, Arizona, and surrounded by the spectacular boulders of Texas Canyon."

On arrival, we will be introduced to Amerind, then our group will begin our visit to the Art Gallery, followed by a self-guided tour of the Museum. Since there are no restaurants in the area, we can enjoy our "box lunches" at the outdoor picnic tables adjacent to the museum. The total cost (Bus, Museum Fee, Lunch) is $56.00/person.

Note this is a non-refundable event

Special Interest Groups (SIGs)

What are Special Interest Groups?
Special Interest Groups (SIGs) are ongoing groups that meet and socialize regularly around a topic. It’s easy to join, and you can do so at any time. You register just like you do for a class. There is a menu for special interest groups on the Browse Classes menu of the website, or you can register on the links below. Want to start a special interest group at OLLI? It can be online or in-person. Let us know your ideas: email us at ollimail@arizona.edu

In-Person SIGs

Creative Fun

One Saturday per Month: 10:00 AM - 2:00 PM
Location: Central Tucson Campus and Online
OLLI-UA Special Interest Group for all members

SIG Description
This Special Interest Group is designed to help our students learn/do/complete interesting creative projects while enjoying a social atmosphere. We are offering this class as a hybrid – online and in person. All OLLI-UA members, friends and family are welcome to join and experience the fun and creativity that OLLI can offer.

Our group will offer a variety of creative opportunities, including scrapbooking & card making, painting, needlework, beading, and much more in a casual, social setting. Bring your suggestions, unfinished projects to finish, learn new activities, and/or provide your knowledge to the group.

We have scheduled to meet at least one Saturday per month from 10am-2pm. We can order lunch to be delivered or bring your own.

We anticipate eventually doing a larger scale project, such as a quilt for donation to charity. The possibilities are endless! Future dates for group sessions vary and are determined by the group.

Community Service Special Interest Group
