

HEALTH & SAFETY ON SOCCER ISLAND

We have modified our curriculum and operating procedures to ensure safety on Soccer Island. Additionally, *all coaches have completed a mandatory health and safety course.*

During our sessions your coach will:

- Avoid high-fives, fist bumps and unnecessary physical contact.
- Wear a face covering/shield when in close proximity to parents and players.
- Use colored dots as “home base” to keep children spread out as much as possible. Please encourage your child to return to the same dot each and every time.
- Clean and put away all equipment. Children will not be permitted to help.
- Continue to remind children of the importance of keeping safe distances when practicing skills.

Additionally, coaches will be sanitizing all equipment before each session. We will do our best to use smaller group sizes and/or larger field setups to allow for the distancing of participants and observers.

We are requesting that families attending in-person sessions follow these guidelines for the health and safety of other families and our coaches:

- Wash or sanitize hands before entering Soccer Island.
- Follow all current state and local face covering guidelines.
- Practice social distancing from others who do not live in your household.
- Help our coach by monitoring your child to make sure he or she maintains appropriate social distancing both on and off the field.
- And, of course, please stay home if you or your child are sick.

Please note that these safety guidelines may change based on recommendations from the CDC, WHO and State and Local authorities.
