SOCCER SHOTS EMPOWER

A soccer program designed for children with disabilities

ABOUT SOCCER SHOTS EMPOWER

Soccer Shots is an engaging children's soccer program with a focus on character development. We have had the privilege of impacting children through our program for almost 20 years. In addition to our current offerings, this year we are promoting a new program, Soccer Shots Empower. Empower is designed specifically for children with physical or cognitive disabilities. The program provides children with a venue for fun, participation, and growth, as well as opportunities to:

- Develop positive social relationships with coaches, teammates and buddies
- Build confidence by trying new activities
- Learn new skills
- Practice following directions and taking turns
- Celebrate successes
- Participate in activities that develop gross motor abilities, flexibility, coordination and balance
- Build character
- Reinforce skills and behaviors from school or home

Soccer Shots Empower provides an environment where all children can experience success!

PARENT TESTIMONIAL

"Soccer Shots means so much to special needs children who do not regularly get the chance to play on a sports team. Finley has "classic" autism and we have worked so hard to give him confidence in his life, since many children with autism struggle with anxiety. Soccer Shots makes him feel like he's on top of the world. It gives him confidence, while playing and working within boundaries. He loves making goals, and I know that will translate to other goals in his life as he grows. He's also getting to the stage in life where he is beginning to see he is different from typical children. Soccer is a game that bridges the differences, and it gives him something in common with typical children.

Thank you again for all you do! "

- Sarah B., Parent
